

## Rural Oxfordshire still ranked relatively poorly on geographical barriers to services

According to the latest Indices of Deprivation, on the measure of geographical barriers to services (a sub domain of the overall index), 85 of the 407 lower super output areas\* in Oxfordshire are ranked in the 10% most deprived areas in England.

- The geographical barriers to services sub domain includes road distance to GP surgery, post office, primary school and supermarket / convenience store.

In those areas which are in rural Oxfordshire (on the ONS rural/urban classification), almost half (46%) of lower super output areas are ranked in the 10% most deprived on barriers to services.

### Geographical barriers to services sub domain of the Indices of Deprivation 2015 by lower layer super output area

Source: Indices of Deprivation 2015, Department for Communities and Local Government

\*Lower Layer Super Output areas are used for the reporting of small area statistics and include an average of 1,500 residents

The number (and proportion) of areas in the most deprived 10% in Oxfordshire on geographical barriers to services is slightly above the previous (2010) Indices of Deprivation. This means that, relative to other areas in England, the position in Oxfordshire appears to have worsened.

The district showing the greatest difference is Vale of White Horse which has gone from 16 areas in the worst 10% in 2010 to 23 areas in that category in 2015.

Further work is needed to understand the cause of this change in ranking.

### Number of areas per district in most deprived 10% on geographical barriers to services sub domain of the Indices of Deprivation 2010 and 2015

	Indices of Deprivation 2010			Indices of Deprivation 2015		
	Total number of LSOAs (2010)	LSOAs in worst 10% on geographical access to services (count and percent)		Total number of LSOAs (2015)	LSOAs in worst 10% on geographical access to services (count and percent)	
Cherwell	91	22	24%	93	25	27%
Oxford	85	1	1%	83	0	0%
South Oxfordshire	89	26	29%	89	25	28%
Vale of White Horse	75	16	21%	76	23	30%
West Oxfordshire	64	14	22%	66	12	18%
<b>TOTAL</b>	<b>404</b>	<b>79</b>	<b>20%</b>	<b>407</b>	<b>85</b>	<b>21%</b>

Data source: Indices of Deprivation 2015, Department for Communities and Local Government; LSOA = Lower Layer Super Output Area, some LSOA boundaries were changed between 2010 and 2015

#### NOTES

- The overall Index of Multiple Deprivation (IMD) rank is made up of seven “domains” of deprivation: Income Deprivation; Employment Deprivation; Education, Skills and Training Deprivation; Health Deprivation and Disability; Barriers to Housing & Services; Crime; Living Environment.
- The Barriers to Housing and Services Domain measures the physical and financial accessibility of housing and local services. The indicators fall into two sub-domains: ‘geographical barriers’, which relate to the physical proximity of local services, and ‘wider barriers’ which includes issues relating to access to housing such as affordability. This publication reports on the geographical barriers sub domain only.
- Further information about the English Indices of Deprivation is available from the Dept. for Communities and Local Government website: <https://www.gov.uk/government/statistics/english-indices-of-deprivation-2015>
- Interactive presentations of the IMD 2015 data are available from <http://dclgapps.communities.gov.uk/imd/idmap.html> and Oxfordshire Insight <http://tabsoft.co/1Oa6GXl>
