

Summary

This profile summarises the characteristics of the population of Banbury Neithrop ward as recorded by the 2011 Census. The ward area is shown in the map opposite.

In 2011, Banbury Neithrop had a total population of 5,868 residents including a small number of communal establishment residents (43). This was 337 more residents than in 2001, an increase of 6%.

Since 2001 there have been increases in the number of people of working age and in the number of children aged 0 to 9.

There has been a significant increase in proportion of ethnic minority residents living in Banbury Neithrop, from 10% in 2001 to 25% in 2011. The largest increases were in the South Asian and "other white" groups. The ward has a higher proportion of ethnic minority residents than Cherwell as a whole (25% compared with 14%).

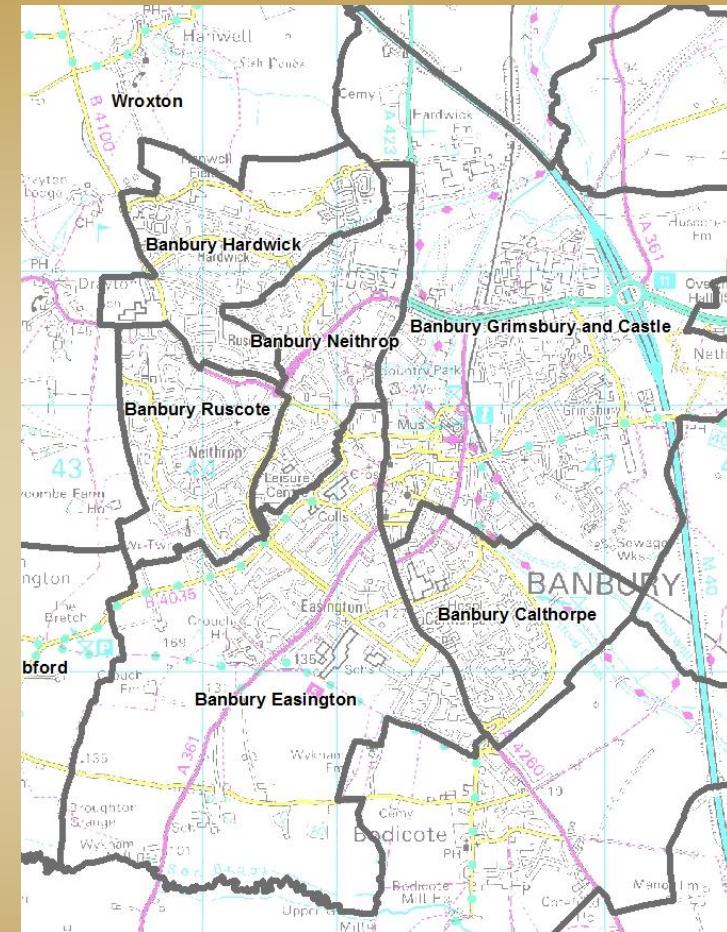

The profile of households in Banbury Neithrop ward shows an above average proportion of lone parent households with dependent children compared with Cherwell (9% vs 4%).

Residents are more likely to be in routine and semi-routine occupations than average and 32% have no qualifications, well above the average for Cherwell (20%).

The proportion of households in social rented housing is above average (25% compared with 12%) and, in common with the rest of Cherwell, the number of households in private rented accommodation has increased since 2001.

Householders in Banbury Neithrop ward are less likely to be car owners than in Cherwell as a whole.

Data in this profile is from the 2011 Census, Office for National Statistics downloaded from www.nomisweb.co.uk and www.ons.gov.uk

Total population

2011 population: 5,868 residents

2,851 males and 3,017 females

Growth of 337 since 2001

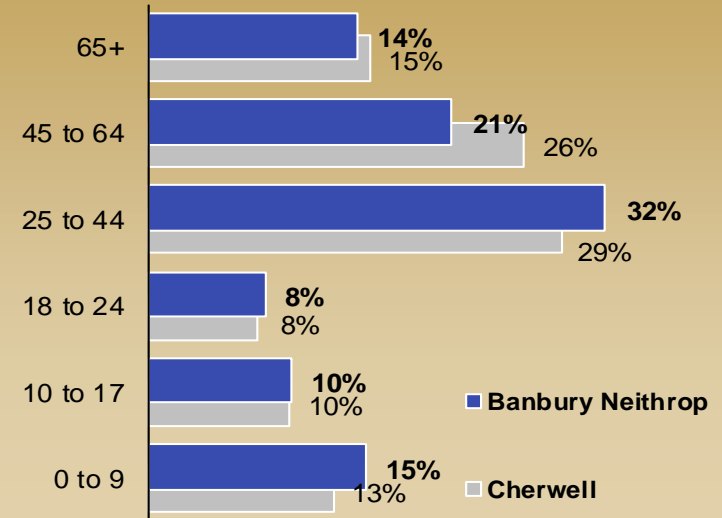

Household residents:
5,825

Comm. est. residents: 43

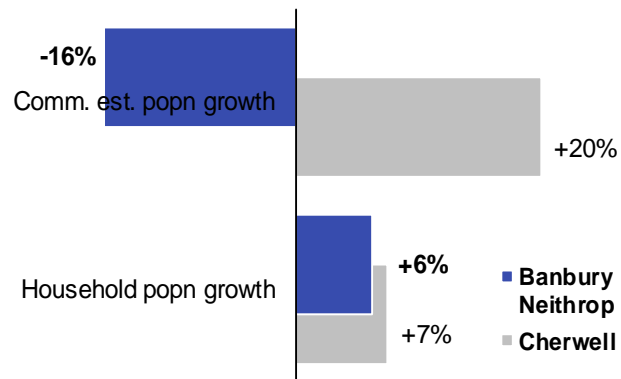

The 2011 Census counted 'usual residents' – that is, people who had lived or intended to live in the city for 12 months or more. Each resident was counted as living either in a 'communal establishment' (e.g. hospital, university hall of residence, prison) or in a household. This profile sometimes looks at residents (e.g. for age structure) and sometimes households (e.g. for housing tenure).

Age structure

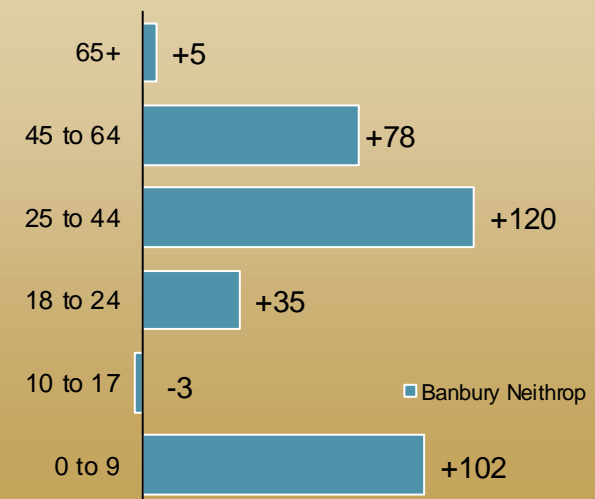

Resident population by age 2011

Growth in household and communal establishment populations, 2001-2011

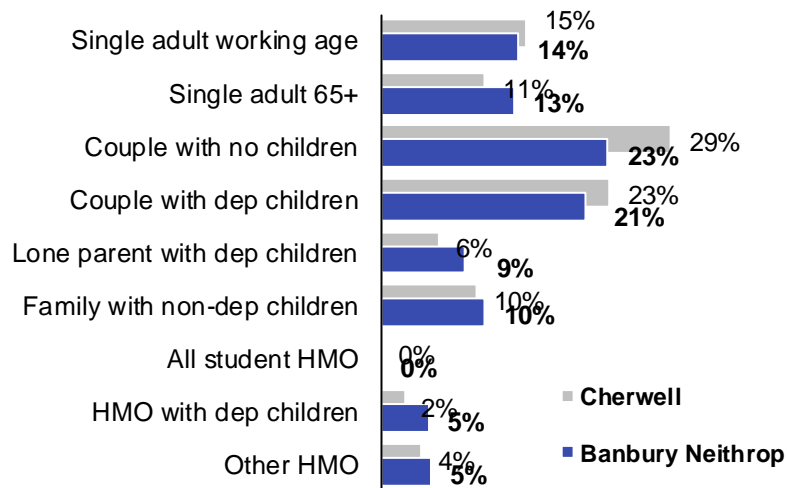

Change in population by age, 2001 - 2011

Household type

Between 2001 and 2011 the number of households in Banbury Neithrop increased by 22, from 2,279 households in 2001 to 2,301 households in 2011.

Households by household type, 2011

Change in households by household type, 2001 - 2011

Dep children: dependent children; HMO: house in multiple occupation. There are various definitions of HMO; here it means two or more unrelated people who are living together.

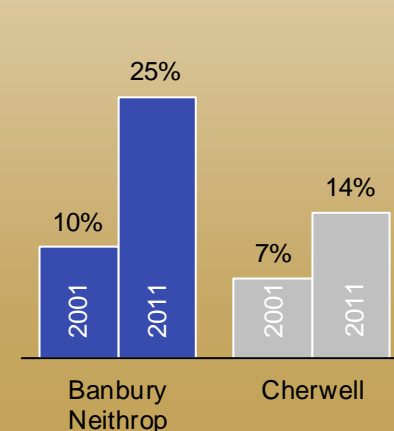

Ethnic group

In 2011, 25% of residents were from a non-White British ethnic group, compared to 10% in 2001.

Resident population by ethnic group 2011

% of residents from non-White British ethnic group, 2001 & 2011

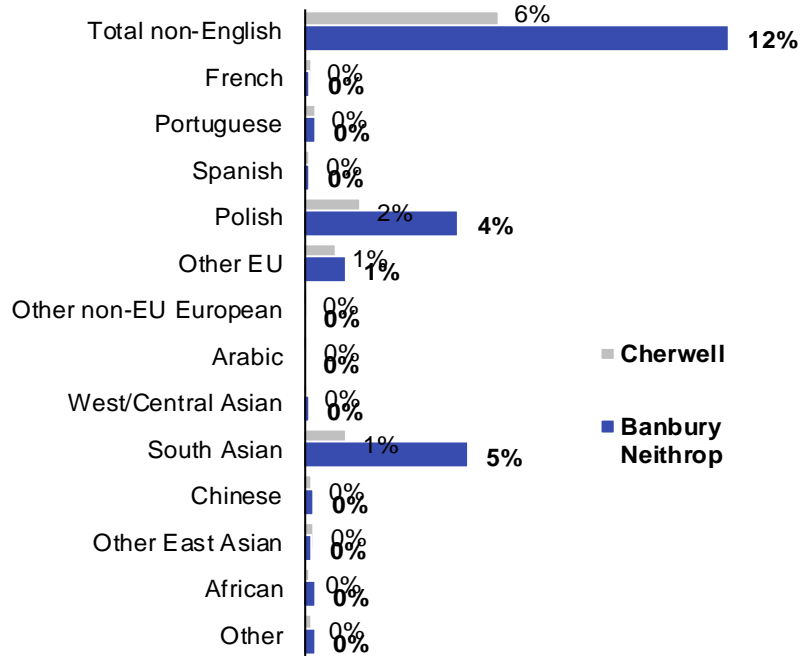

Change in population by ethnic group, 2001 - 2011

Language

Resident population aged 3+ by main language, 2011

% of all usual residents aged 3 years and over

Reported English proficiency, people whose main language is not English, 2011

% of people aged 3 and over whose main language is not English

Religion

Resident population by religion, 2011

Change in resident population by religion, 2001 - 2011

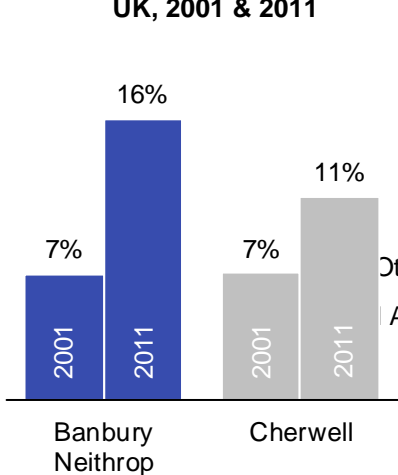

Country of birth

In 2011, 16% of residents were born outside the UK, compared to 7% in 2001.

Resident population by country of birth 2011

% of residents born outside the UK, 2001 & 2011

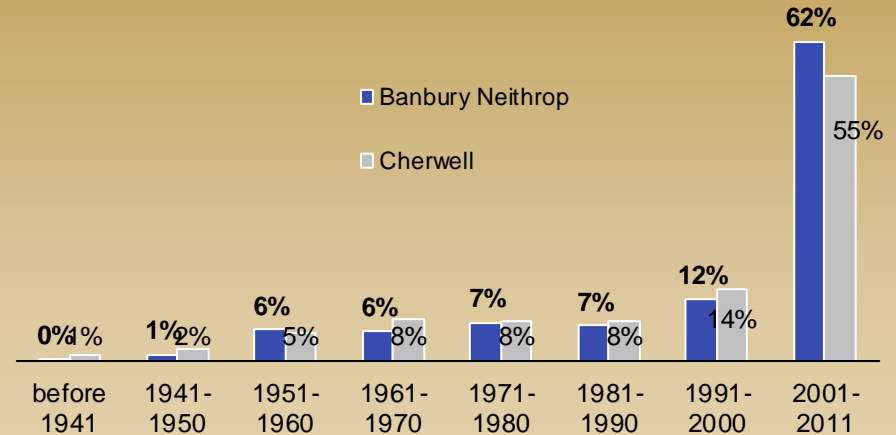

Change in population by country of birth, 2001 - 2011

Length of UK residency

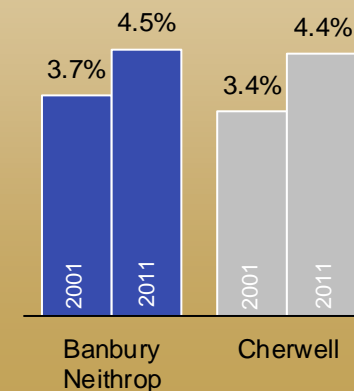

2011 residents born outside UK, by year of first arrival in UK

Full-time students

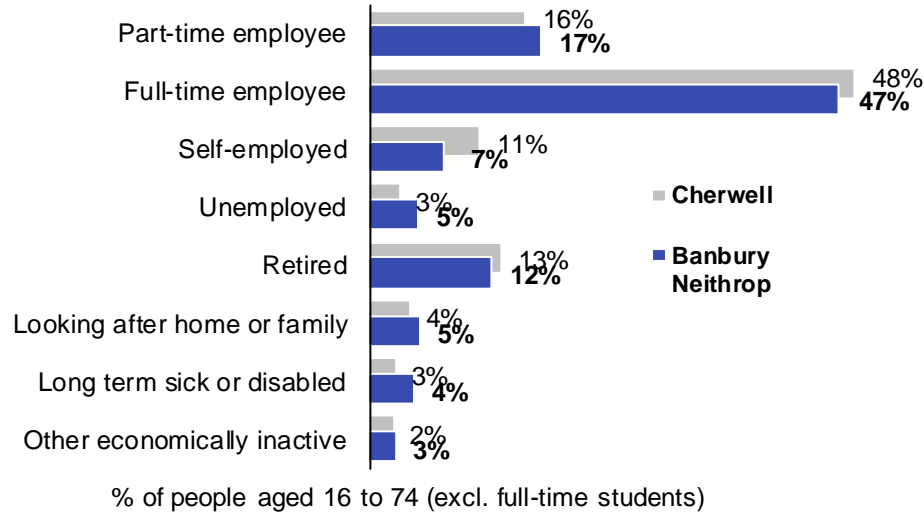

In 2011 there were 262 full-time students aged 16-74 resident in the area, up 58 since 2001. As well as university students this will include full-time students at schools and colleges.

Full-time students aged 16-74, as % of usual residents

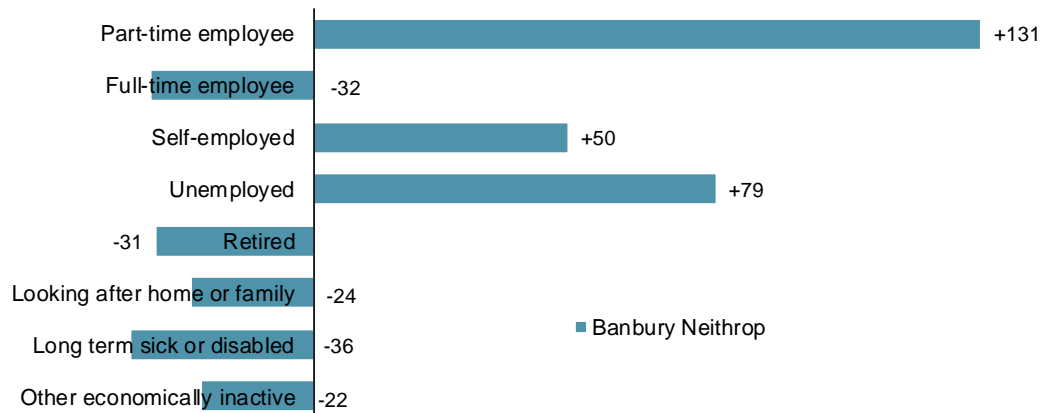

Economic activity

Resident population aged 16+ by economic activity, 2011

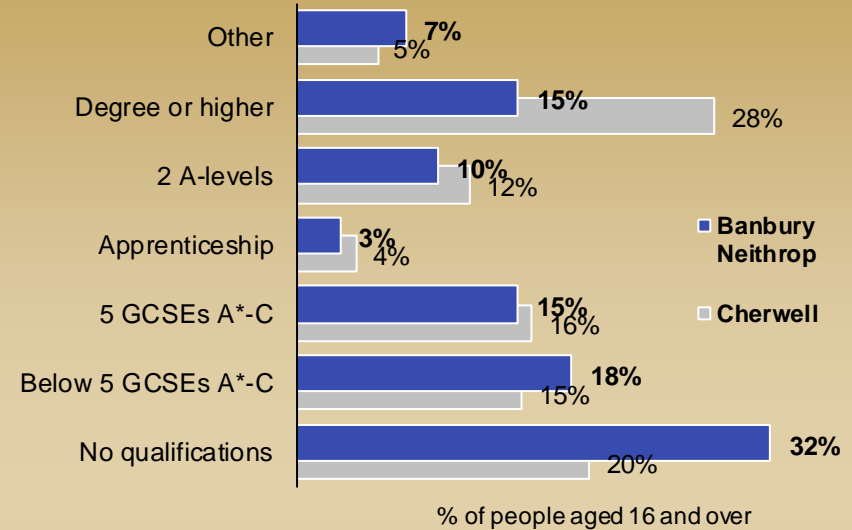

Change in population by economic activity, 2001 - 2011

Qualifications

Resident population aged 16+ by highest qualification, 2011

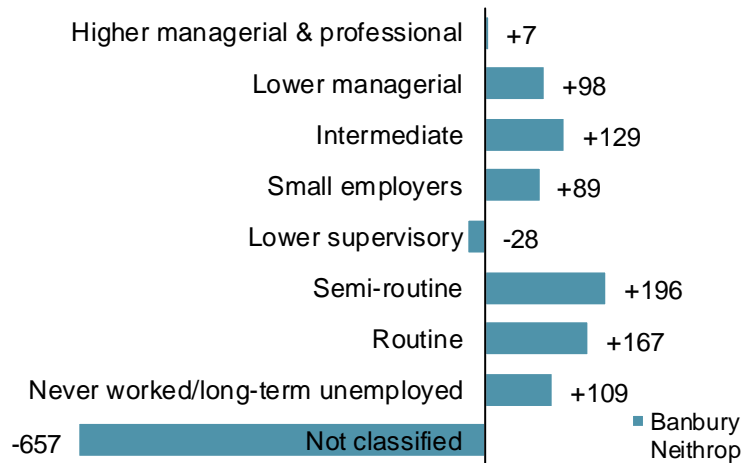

Socio-economic class

All residents aged 16 to 74 years by NS-SEC, 2011

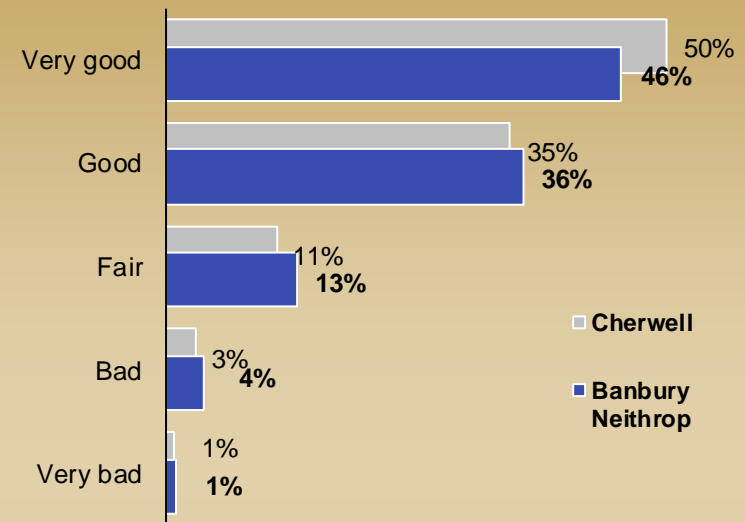

Change in population aged 16 to 74 years by NS-SEC, 2001 - 2011

NS-SEC: National Statistics Socio-Economic Classification. Each resident is classified according to occupation, employment status, supervisory role and size of workplace.

Health

How is your health in general? (2011)
As a percentage of all usual residents

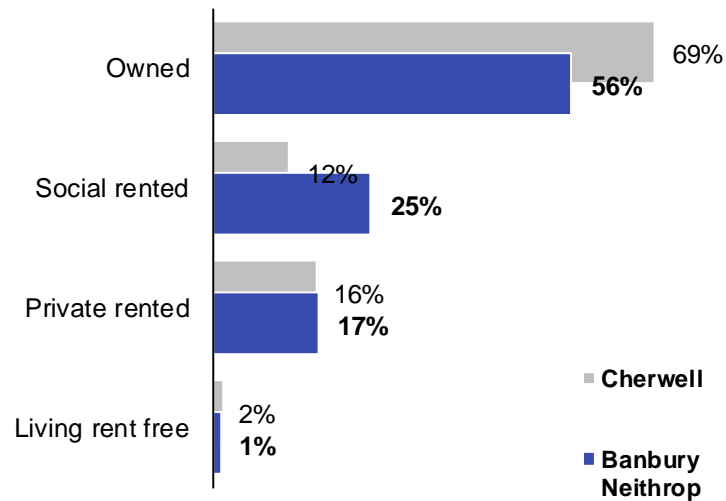

Proportion of residents whose day-to-day activities are limited because of a long-term health problem or disability

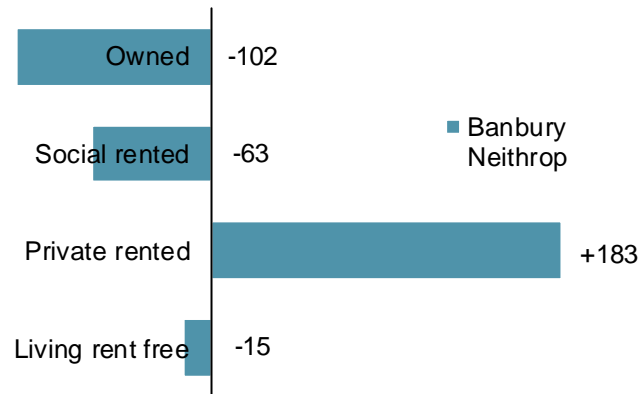

Housing tenure

Households by housing tenure, 2011

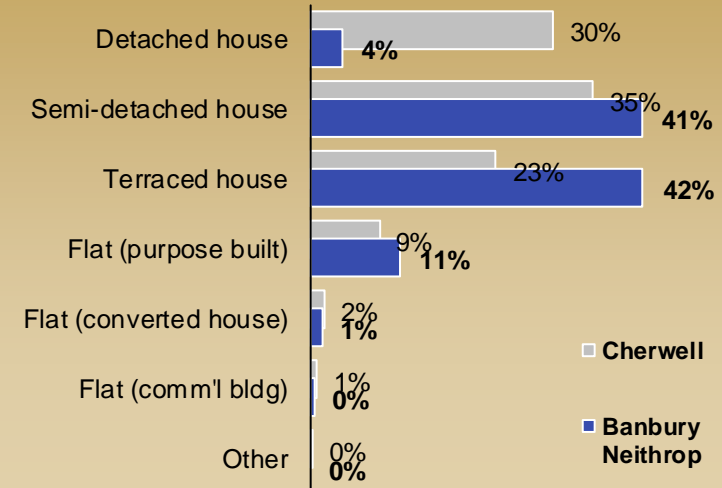

Change in households by housing tenure, 2001 - 2011

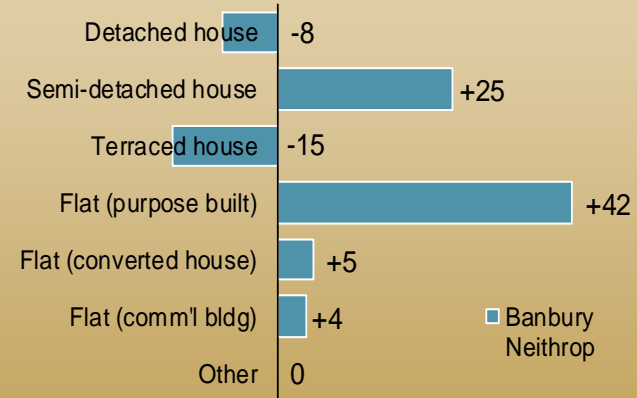

Social rented: renting from the local authority or a housing association

Housing type

'Household spaces' by type, 2011

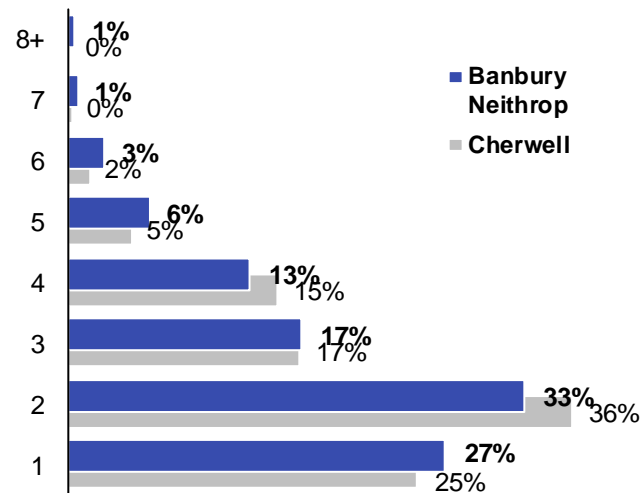

Change in 'household spaces' by type, 2001 - 2011

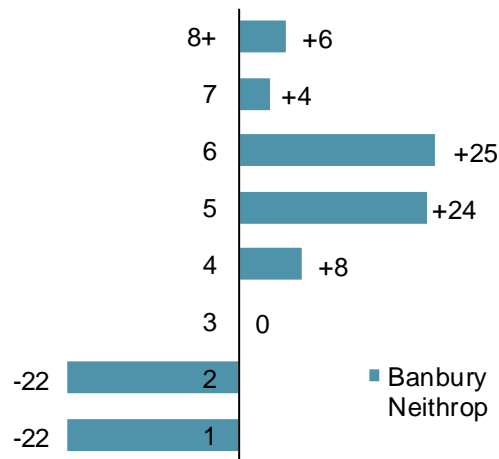

The number of household spaces is different to the number of households, because some household spaces are unoccupied, or are used by are households which are not 'usually resident'.

Household size

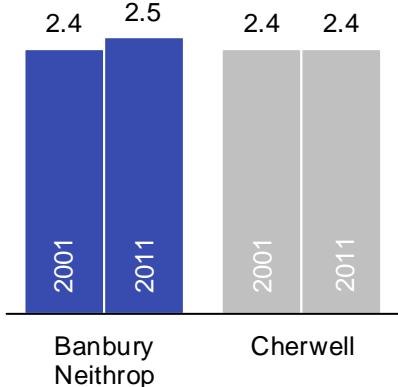

Households by size, 2011

Change in households by size, 2001 - 2011

Average household size, 2001 & 2011

Household occupancy

Occupancy rating is a measure of under-occupancy and over-crowding in housing. It uses information about household size, household structure and number of rooms to estimate whether a household has more or less rooms than it requires e.g. a rating of -1 implies a household has one room less than it needs.

Households by occupancy rating, 2011

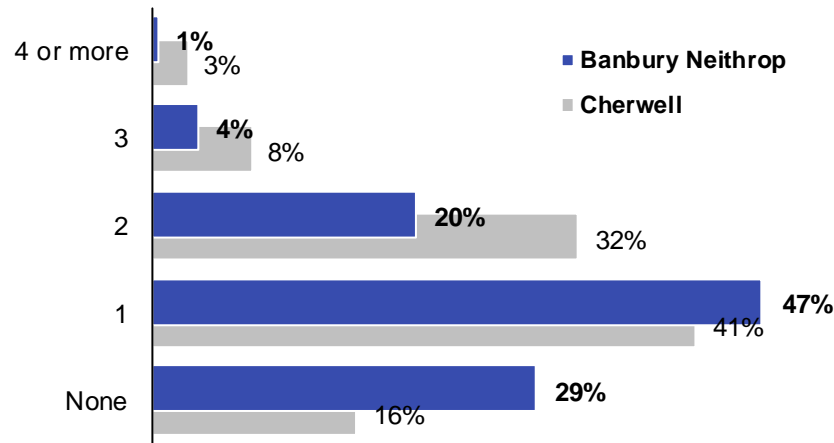

Change in households by occupancy rating, 2001 - 2011

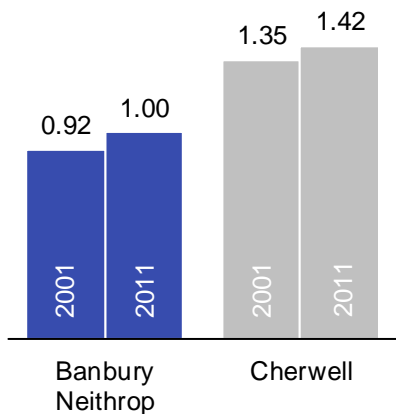

Number of cars

In 2011 there were 2,303 cars belonging to households in the area, compared to 2,083 in 2001.

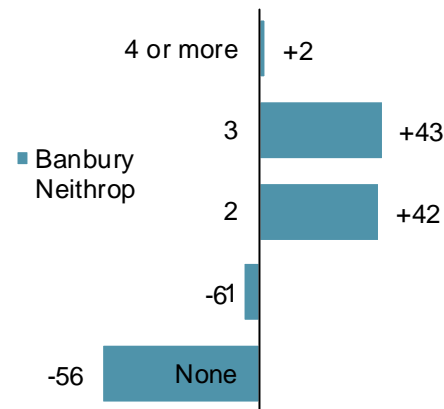

Households by number of cars or vans, 2011

Average number of cars per household, 2001 & 2011

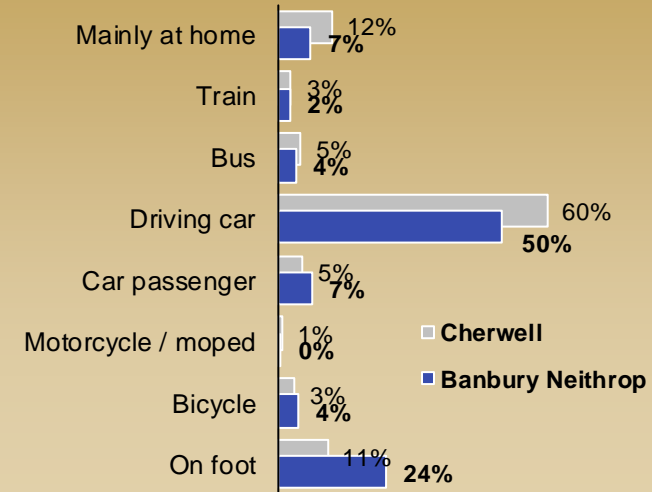

Change in households by number of cars or vans, 2001 - 2011

Travel to work

Population in employment aged 16-74 by method of travel to work, 2011

Change in population in employment aged 16-74 by method of travel to work, 2001 - 2011
