

Rose Hill and Iffley ward profile - 2011 Census

Summary

This profile summarises the characteristics of Rose Hill & Iffley ward in the south of Oxford. The ward area, which comprises two very different areas – the old village of Iffley and the 20th century Rose Hill housing estate – is shown to the right.

In 2011 Rose Hill & Iffley had 6,470 residents living in 2,555 households. It also had 30 residents living in communal establishments. The population grew by 475 over the decade, below the Oxford average rate.

The ward has relatively few full-time students, comprising 6% of working age adults compared to 22% across Oxford. One-quarter of residents are children aged under 18 years, and there is a higher than average number aged over 65 years.

Population diversity has increased markedly over the decade. In 2011 38% of residents were from an ethnic group other than White British, compared to 19% in 2001. 12% of the population were from a South Asian ethnic group. There were increases across all ethnic groups other than White British. 27% of residents were born outside the UK, compared to 13% in 2001.

26% of adult residents have no or low qualifications, and they are overrepresented in routine and semi-routine occupations. GCSE attainment of children at state schools (measured for an area which includes Rose Hill but not Iffley) are below the city average.

Half of households own their home and another third rent from the council or a housing association. The number of households renting in the private sector has increased however while other tenure types have declined.

Poverty & deprivation is a significant issue in Rose Hill, which features among the 20% most deprived areas in England. Rates of working age benefit claims are above average in the ward, as are poverty rates.

Unless otherwise stated, data in this profile is from the 2011 Census, Office for National Statistics, downloaded from www.nomisweb.co.uk and www.ons.gov.uk

Total population

2011 population: 6,500 residents

3,204 males and 3,296 females

Growth of 475 since 2001

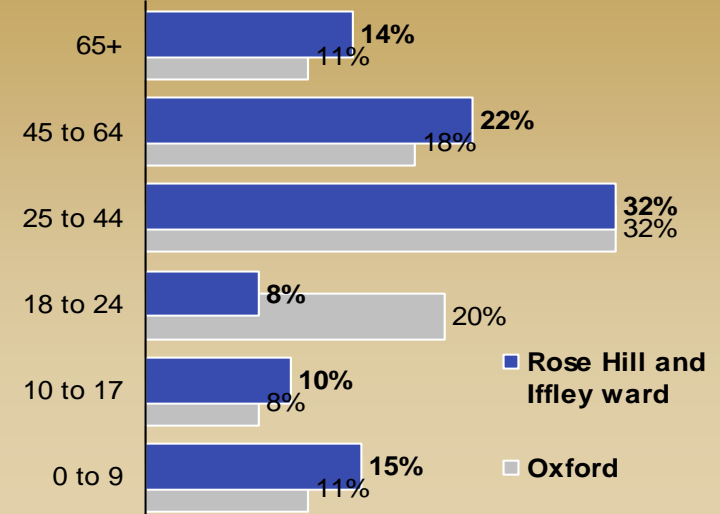

Household residents:
6,470

Comm. est. residents: 30

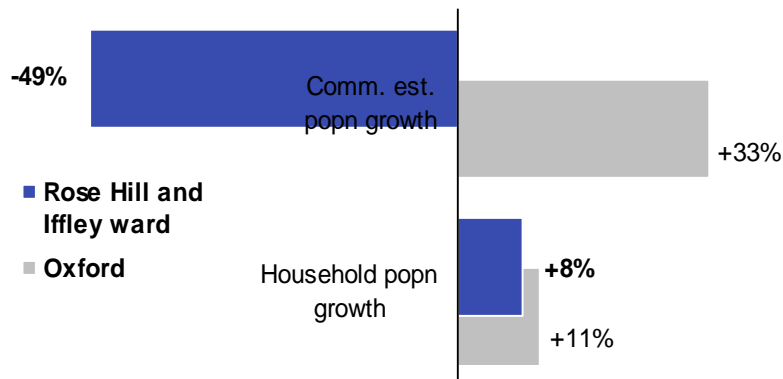

The 2011 Census counted 'usual residents' – that is, people who had lived or intended to live in the city for 12 months or more. Each resident was counted as living either in a 'communal establishment' (e.g. hospital, university hall of residence, prison) or in a household. This profile sometimes looks at residents (e.g. for age structure) and sometimes households (e.g. for housing tenure).

Age structure

Resident population by age 2011

Growth in household and communal establishment populations, 2001-2011

Change in population by age, 2001 - 2011

Rose Hill and Iffley ward profile - 2011 Census

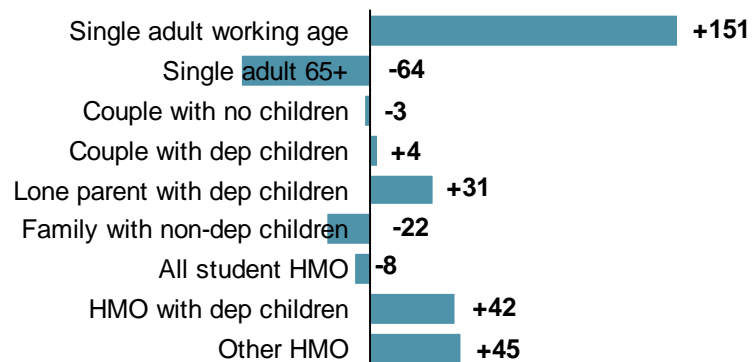

Household type

Between 2001 and 2011 the number of households in Rose Hill and Iffley ward increased by 167, from 2,388 households in 2001 to 2,555 households in 2011.

Households by household type, 2011

Change in households by household type, 2001 - 2011

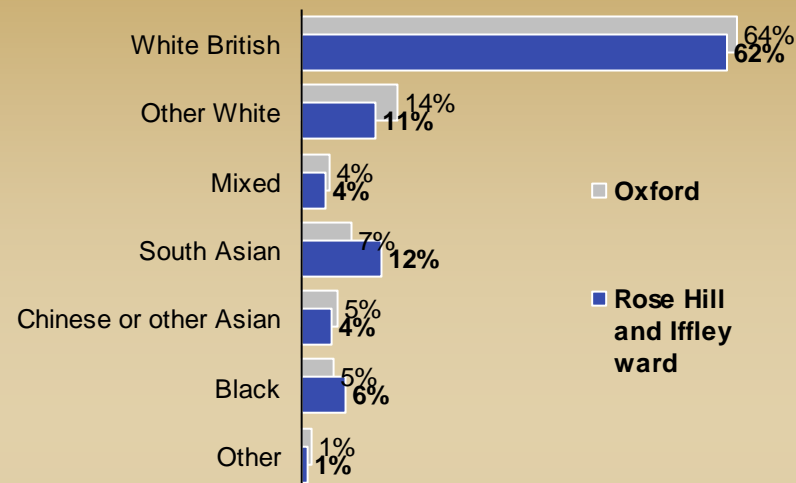

Dep children: dependent children; HMO: house in multiple occupation. There are various definitions of HMO; here it means two or more unrelated people who are living together.

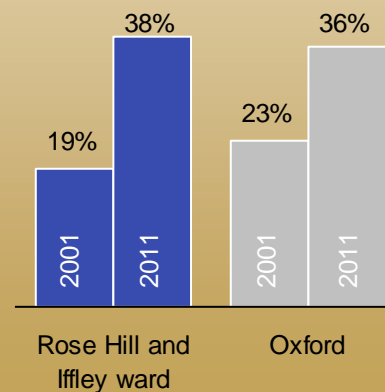

Ethnic group

In 2011, 38% of residents were from a non-White British ethnic group, compared to 19% in 2001.

Resident population by ethnic group 2011

% of residents from non-White British ethnic group, 2001 & 2011

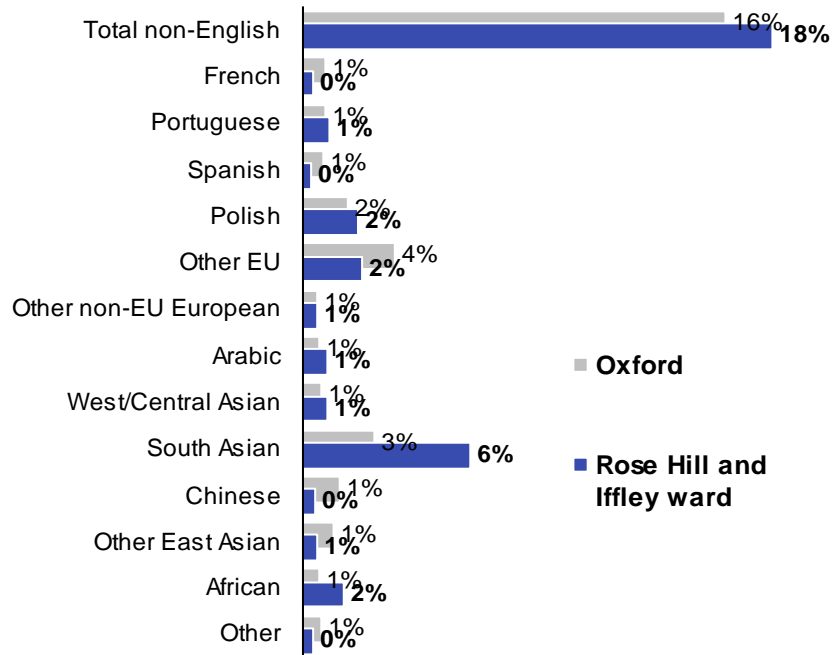

Change in population by ethnic group, 2001 - 2011

Language

Resident population aged 3+ by main language, 2011

% of all usual residents aged 3 years and over

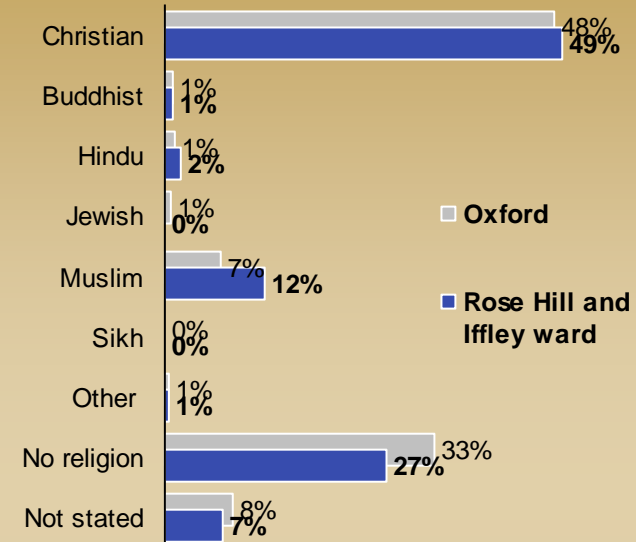

Reported English proficiency, people whose main language is not English, 2011

% of people aged 3 and over whose main language is not English

Religion

Resident population by religion, 2011

Change in resident population by religion, 2001 - 2011

Rose Hill and Iffley ward profile - 2011 Census

Country of birth

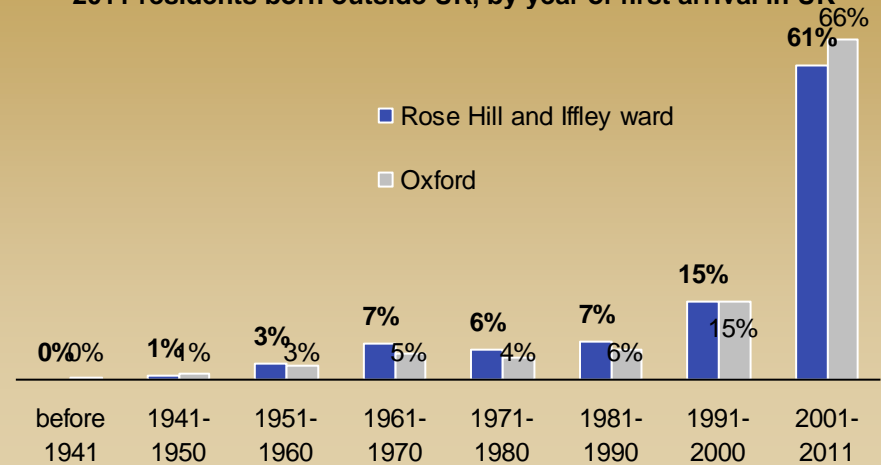

In 2011, 27% of residents were born outside the UK, compared to 13% in 2001.

Resident population by country of birth 2011

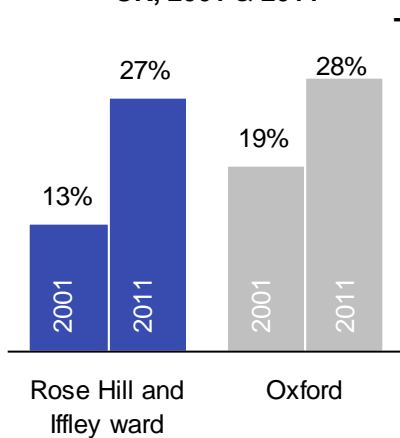

Length of UK residency

2011 residents born outside UK, by year of first arrival in UK

% of residents born outside the UK, 2001 & 2011

Change in population by country of birth, 2001 - 2011

Full-time students

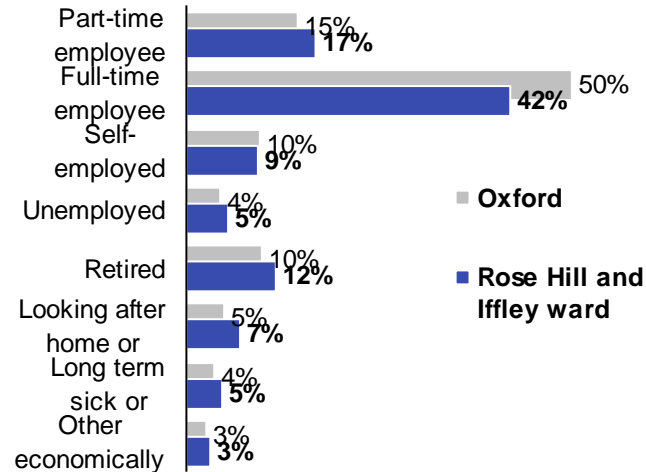

In 2011 there were 408 full-time students aged 16-74 resident in the area, up 14 since 2001. As well as university students this will include full-time students at schools and colleges.

Full-time students aged 16-74, as % of usual residents

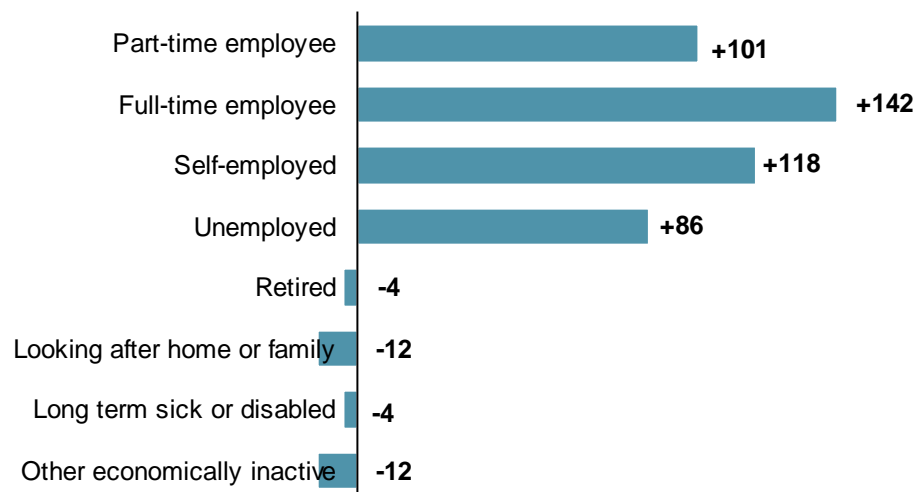

Economic activity

Resident population aged 16+ by economic activity, 2011

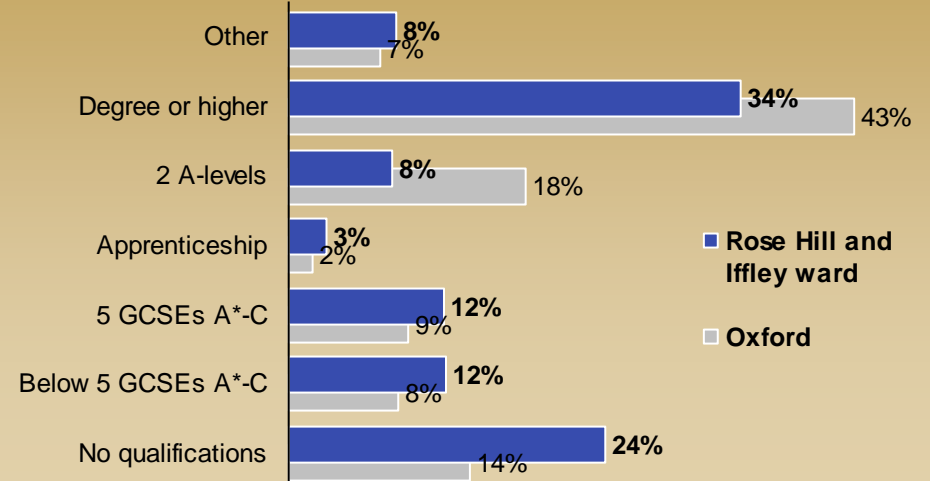

% of people aged 16 to 74 (excl. full-time students)

Change in population by economic activity, 2001 - 2011

Qualifications and GCSEs

Resident population aged 16+ by highest qualification, 2011

% of people aged 16 and over

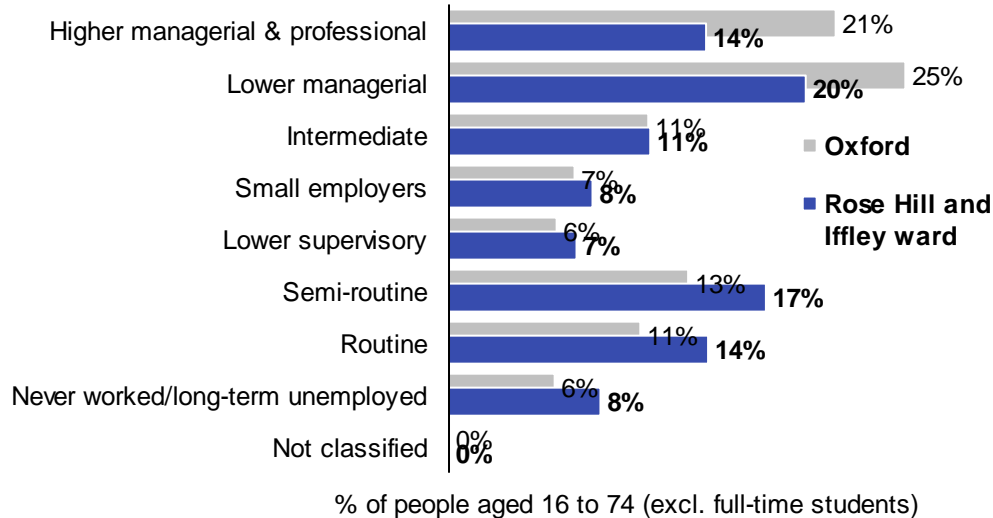

Percentage of state school pupils achieving 5 A*-C GCSEs, 2009-12 (with confidence interval or margin of error shown)

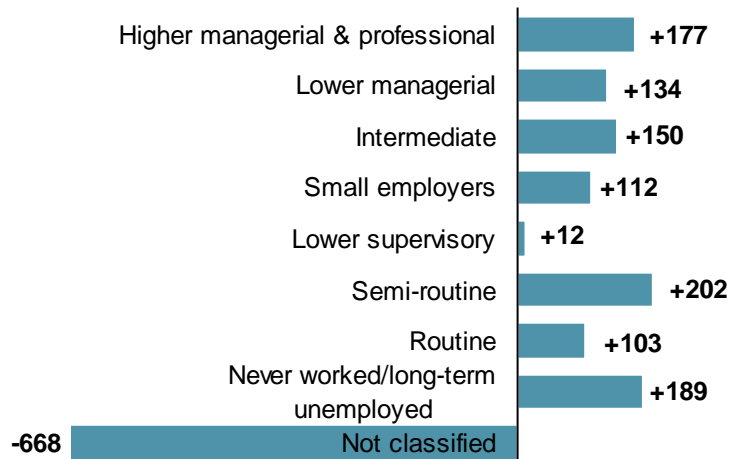

Source: Department for Education
 GCSE figures are for Middle Layer Super Output Areas, which are roughly the size of wards but do not cover the same geography; the one chosen here is the best fit to the area in this profile.

Socio-economic class

All residents aged 16 to 74 years by NS-SEC, 2011

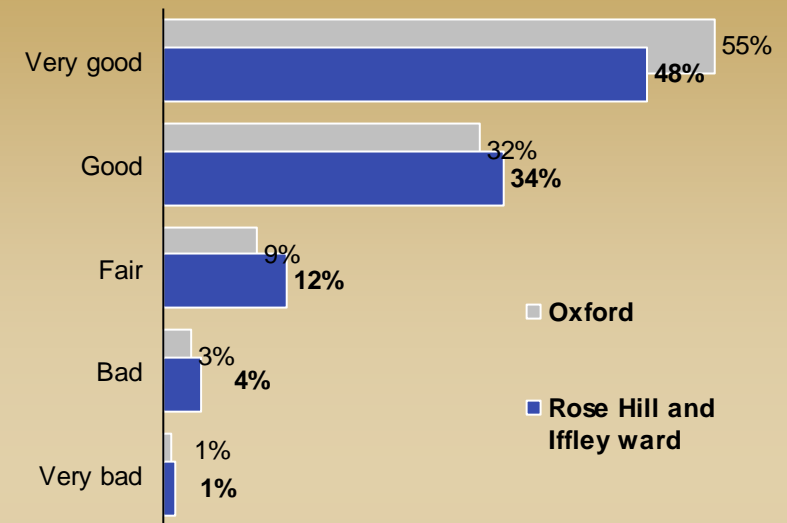

Change in population aged 16 to 74 years by NS-SEC, 2001 - 2011

NS-SEC: National Statistics Socio-Economic Classification. Each resident is classified according to occupation, employment status, supervisory role and size of workplace.

Health

How is your health in general? (2011)
As a percentage of all usual residents

Proportion of residents whose day-to-day activities are limited because of a long-term health problem or disability

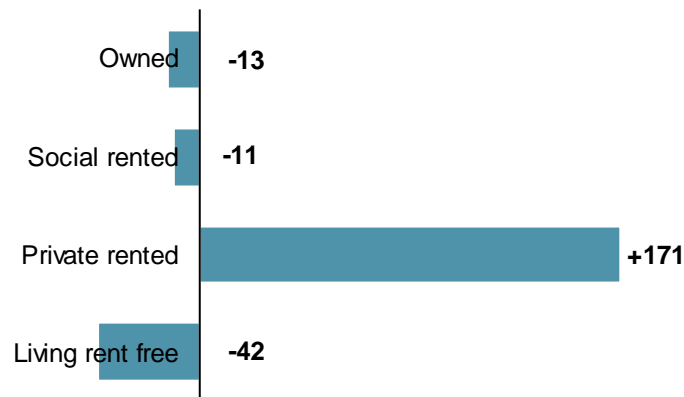

Housing tenure

Households by housing tenure, 2011

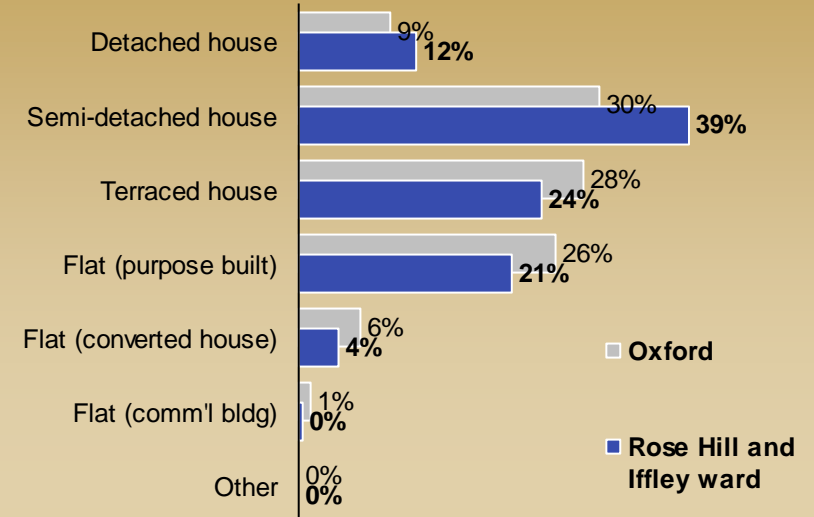

Change in households by housing tenure, 2001 - 2011

Social rented: renting from the local authority or a housing association

Housing type

'Household spaces' by type, 2011

Change in 'household spaces' by type, 2001 - 2011

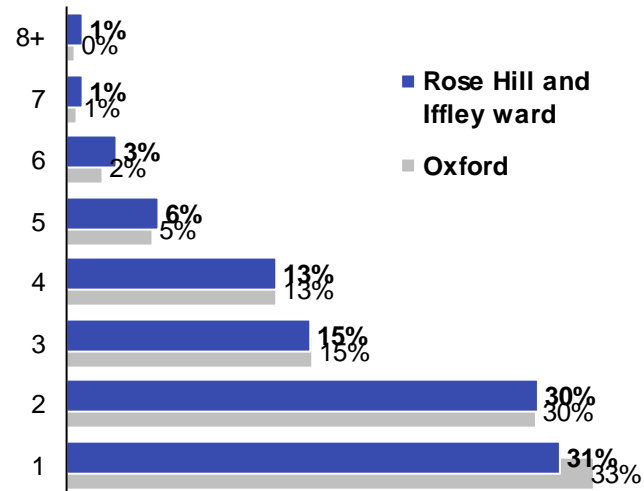

The number of household spaces is different to the number of households, because some household spaces are unoccupied, or are used by are households which are not 'usually resident'.

Rose Hill and Iffley ward profile - 2011 Census

Household size

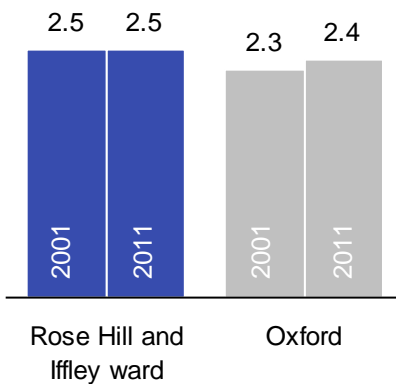

Households by size, 2011

Change in households by size, 2001 - 2011

Average household size, 2001 & 2011

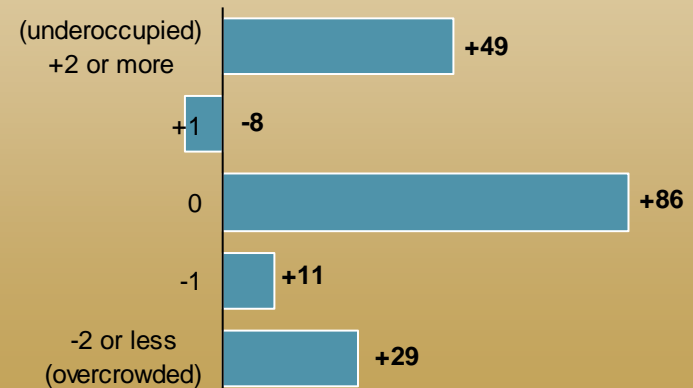

Household occupancy

Occupancy rating is a measure of under-occupancy and over-crowding in housing. It uses information about household size, household structure and number of rooms to estimate whether a household has more or less rooms than it requires e.g. a rating of -1 implies a household has one room less than it needs.

Households by occupancy rating, 2011

Change in households by occupancy rating, 2001 - 2011

Rose Hill and Iffley ward profile - 2011 Census

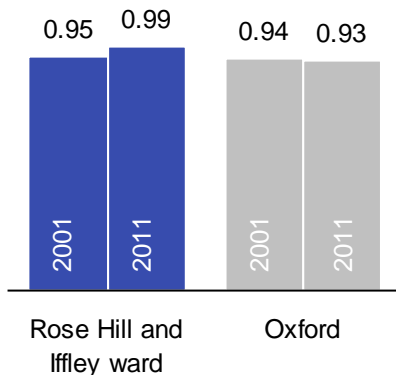

Number of cars

In 2011 there were 2,530 cars belonging to households in the area, compared to 2,265 in 2001.

Households by number of cars or vans, 2011

Average number of cars per household, 2001 & 2011

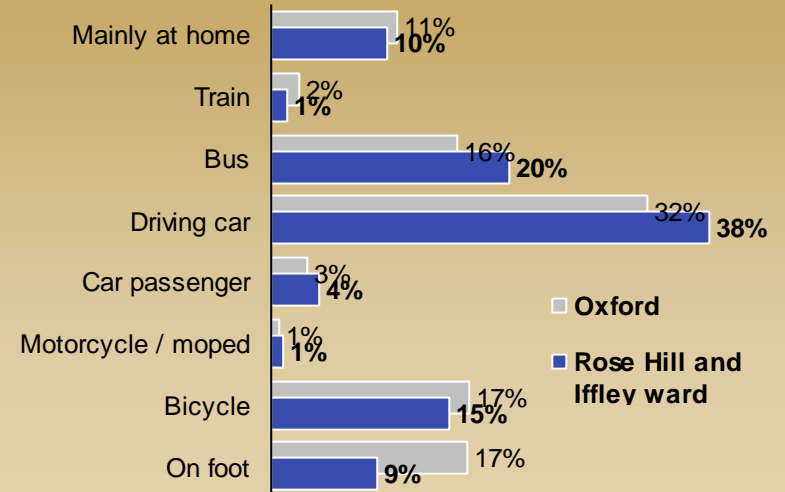

Change in households by number of cars or vans, 2001 - 2011

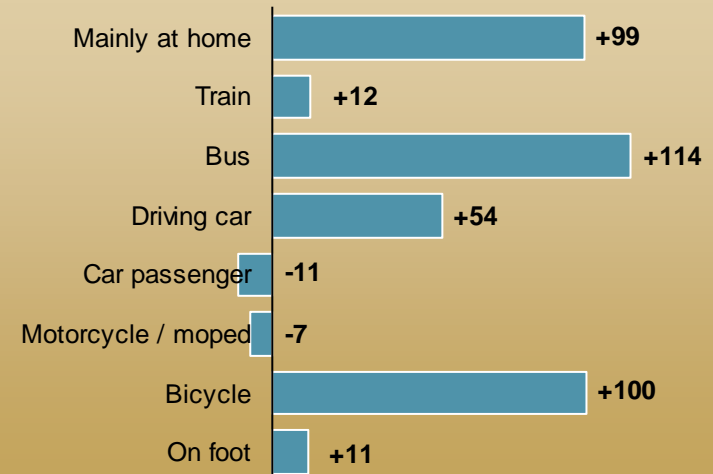

Travel to work

Population in employment aged 16-74 by method of travel to work, 2011

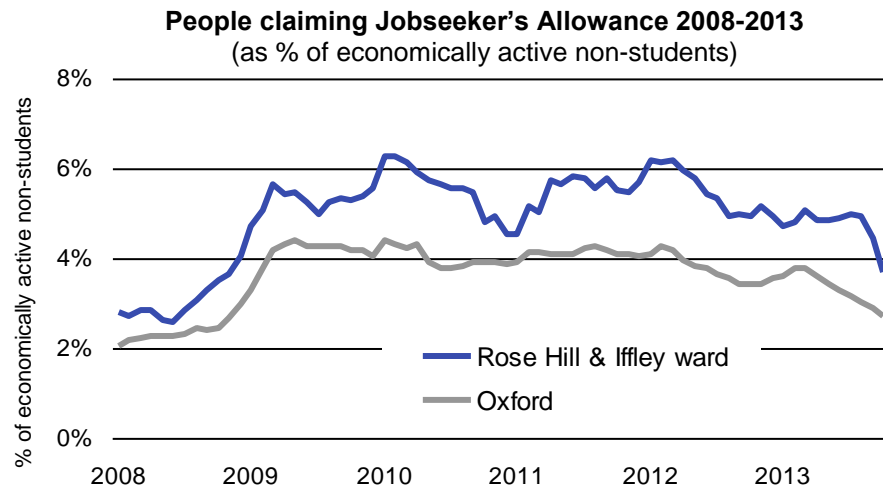

Change in population in employment aged 16-74 by method of travel to work, 2001 - 2011

Rose Hill & Iffley ward profile - non-Census data

Working age benefits

Following the recession of 2008/09 the number of Jobseeker's Allowance claimants rose to 196, but by October 2013 had fallen to 115.
