Questions from [REDACTED] as follows:

1. Would UMBEG consider communication with boaters groups such as B.O.A.T. JCBY etc if mooring enforcement is foreseen to be costly to tax payers, restricting / dangerous to navigation? If this is then thought reasonable then would UMBEG act on it's conclusions?
2. Would UMBEG consider sharing the open minutes with next meeting times and dates in good time as this can save costly to tax payers F.O.I. requests ?.
