Health and Community

Spatial policies

Policy HCS1 Community facilities

In general conformity with strategic Local Plan policies: Whilst the approach is broadly in line with adopted Local Plan policy CS20 (Cultural and community development) in the Core Strategy the policy does lack flexibility, which could be problematic as it seems to apply to anything that could be defined as a community facility, whether public or private. It may be that needs and demand change over time. An application for a smaller private sports club facility, or a different kind of facility, might not be a negative thing, but would be prevented by the policy.

Policy HCS2 Allotments

In general conformity with strategic Local Plan policies: Again the changes made to the policy do appear to have taken on board some of the comments previously made, particularly in relation to the potential loss of an existing facility and the type and location of its replacement. I presume as suggested that you have discussed this policy with colleagues in the Parks and Recreation Team.
