Please tell us below why you consider the document to be unsound, not legally compliant or fails to comply with the duty to co-operate. If you do believe the document is sound, legally compliant, or complies with the duty to co-operate you may use the box to explain why.

I believe you need to show that you have consulted with residents of the wider area who use Cowley Marsh park for recreation and as a footpath, and have really considered the results of that consultation. You need to ensure that serious inroads such as that made recently for a wheelie bin storage area are rolled back and the area protected.

It should be given park status to help protect it.

5

What change(s) do you consider necessary to make the document sound or legally compliant? Please explain why this change will achieve soundness or legal compliance. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination.) It would be helpful if you could suggest revised wording for the policy or text in question.
