

Dear Planning Department

Having reviewed the local plan for the area close to me in [REDACTED] I would like to make the following comments.

1. The current council depot even though it is an eyesore and smells terrible should not be designated for housing, this should be for community and leisure use. I [REDACTED] need to swim, the only way i can get to Blackbird Leys is by taxi as the bus is too far for me to walk, there should be a replacement for temple cowley pool.  
The current road junction between marsh road and Oxford Road/Cowley road is already very dangerous, many potholes at the junction and difficult for bikes and cars to get out at peak hours, extra housing would generate many more vehicles.

2. Under Policy SR5 I believe that Cowley Marsh Park should be protected, it has always been well used, has a great cycle path, tennis and basketball courts and the football pitches, play equipment and all grassy area are excellent .

Sincerely

Alison Magnall
