Question 7.

To which Modification(s) or part(s) of the Sustainability Appraisal does this response relate?

You must provide an answer to this question.

My main concern is Growth. Oxford is a town that has had enormous increase in people and therefore vehicles in the last 19 years. Between 2001 and 2011 there was an increase of over 30% in Cowley area and some more growth will have continues. This area was not alone in having an increase of people living there.. Any growth in homes and jobs will make what is already a very congested town worse.

In the light of this any reduction of development will be welcome. The City Council have accepted that there is a climate emergency and should attempt to reduce all activities that will create more greenhouse gasses.
