### Reason for **SUPPORT** or **OBJECTION**:

Please give details to explain why you support or object to the wording of the Modification(s) or part(s) of the Sustainability Appraisal of the Main Modifications.

You must provide an answer to this question.

I object the whole plan and also the modifications. The development will have a negative impact in the green belt. The plan is not detailed and cannot be measured properly, which indicates that it will be a failure in the long run. The needs are in the city of Oxford but not in the rounding villages (i.e. Yarnton, Bedbroke, etc) where the housing is going to be developed and where the impact to the green belt will be felt. It shows that the previous policies protecting the environment and the green belt have been broken.

## Question 11.

### Summary of Representation:

If your reason for support or objection is longer than 100 words, please summarise the main issues raised.
