- Not positively prepared - i.e. the strategy will not meet development needs
- Not justified - i.e. there is no evidence to justify the modification
- Not effective - i.e. it won't work
- Not consistent with national policy - i.e. does not comply with the law

## Question 10.

**Reason for SUPPORT or OBJECTION:**

Please give details to explain why you support or object to the wording of the Modification(s) or part(s) of the Sustainability Appraisal of the Main Modifications.

You must provide an answer to this question.

I refer to 60 houses to be built on Park Farm Marston.

I came here [REDACTED] 34 years ago and was delighted that there was a beautiful and ancient area of nature; hedgerows & meadows rich in bird life and wildlife. I have the letter which i wrote 1986 to two late friends, describing its uniqueness within the CITY. It meant that it has been shared by 10000s walkers.. a healthy AMENITY. It is a route into town to avoid cars and buses.

Due to [REDACTED] , the lane has been my lifeline.

I am a photographer, keenly observant. The unfolding of nature through the seasons, the ancientness and undisturbed sanctuary is for all to share.

The area is designated Scientific Interest, a proven reason for conservation.

I have taken hundreds of photographs too of the flooded meadows.

We have the tragic examples of fast encroaching climate change ruining lives in Britain only 8 weeks ago (now March 26th)What a travesty that flood plains were used for housing. !!

That area by the meadows has had huge drainage problems. Any added housing would make nightmares.

New houses are indeed needed .. I understand.

In conclusion I object to building houses on Park Farm , a rich and ANCIENT area of NATURE ... directly adjacent to a designated area of SCIENTIFIC Interest. It is a unique environment providing a PRECIOUS AMENITY to all, for walking and healthy wellbeing. IT FLOODS already and climate change is with us. DRAINAGE is already compromised. Barbara Phillips
