## Question 10.

### Reason for SUPPORT or OBJECTION:

Please give details to explain why you support or object to the wording of the Modification(s) or part(s) of the Sustainability Appraisal of the Main Modifications.

You must provide an answer to this question.

I am extremely concerned about the plans to build housing on what is currently flood plain in the Marston area of Oxford. It seems crazy to do this in the context of climate change, and the additional building is likely to exaceberate flooding risk for the entire area. The cycle paths in this area are also well-used and provide a traffic-free, safe cycling area for commuters into town as well as families - if these paths are no longer usable, it will also move additional traffic onto the main roads, and many families will simply make the journey in cars.

## Question 11.

### Summary of Representation:

If your reason for support or objection is longer than 100 words, please summarise the main issues raised.
