Question 9.

If you object, please state why:

The Examination Inspectors are required to consider whether the Local Plans have been properly prepared against tests set out in the Government's National Planning Policy Framework (paragraph 182). Please tick any which apply:

Not positively prepared - i.e. the strategy will not meet development needs

Not justified - i.e. there is no evidence to justify the modification

Not effective - i.e. it won't work

Not consistent with national policy - i.e. does not comply with the law

Question 10.

Reason for SUPPORT or OBJECTION:

Please give details to explain why you support or object to the wording of the Modification(s) or part(s) of the Sustainability Appraisal of the Main Modifications.

You must provide an answer to this question.

I fully support the responses from the Marston Residents Association and environmental experts. I will not attempt to restate those arguments as I agree with them all.

My big concern is that Oxford City Councils' have stated environmental principles and priorities and their plans for development have not been followed. Oxford City Council declared a climate emergency in January 2019; it plans to be zero neutral within this current year; it has committed £18m capital investment to address the climate emergency; committed an ongoing investment of £84m to tackle the climate emergency in Oxford and countywide; set up the first Citizens' Climate Assembly in the Country- YET, is willing to allow development on the Green Belt, and on the flood plain in Oxford. It is well proven that building on flood plains is one of the two primary causes of floods in this country.

Housing is a very real issue - and there are lands where there is not flooding where they can be built why pick a flood plain when for a few years now we have seen devastating floods in the U.K and overwhelming evidence of climate change globally - it is completely unacceptable that this modification proposes to use a flood plain site to build houses on it

Question 11.

Summary of Representation:

If your reason for support or objection is longer than 100 words, please summarise the main issues raised.

The modification to this plan proposes to build houses on a flood plain. In this year alone thousands of people who live not that far from Oxford have been made homeless through flooding; one of the main reasons for flooding is that building on

flood plains has taken place. This is a serious request to Oxford City Council to listen to this and withdraw this proposal. It is unsafe, unlawful and ill thought out. It will cause flooding in this area in the future. Please withdraw this proposal now.
