INTRODUCTION

It is important that you read this application pack in full before applying for a Hackney Carriage or Private Hire vehicle Licence. This application pack should be kept for future reference so that you are fully aware of the procedures in obtaining or renewing your licence, and the guidelines, criteria, conditions and regulations of the licence.

The Council licences Hackney Carriage and Private Hire drivers, vehicles and Private Hire Operators. The authority for doing so was adoption of the Local Government (Miscellaneous Provisions) Act 1976, Part 2, together with the Town Police Clauses Act 1847, and the Public Health Act 1875.

Appointments

Due to the high volume of drivers, vehicles, and new applicants, all applications to obtain or renew a licence must be made by a **pre-booked appointment only** with the Licensing Officer.

Licence

Licences are currently issued annually, subject to the Licensing Authority being satisfied that the applicant is "fit and proper" to be issued with the licence, and that the vehicle meets with the guidelines, criteria, conditions and regulations as described within this Application Pack. Private Hire vehicles are not permitted to be licensed to carry more than 8 passengers.

Fit and Proper Person: A person who poses no threat to the general public, has a good knowledge of the City, is healthy, and is of a good character (including driving record) will be deemed fit and able to hold a licence.

Renewal of Licence

It is the responsibility of the licence holder to apply for the renewal of the licence at the appropriate time. Licence renewals will not be granted until all of the relevant checks have been completed. **To avoid delay, applicants are advised to book an appointment to submit their application to the Licensing Officer approximately 2 to 4 weeks before the expiry of their current licence.** Should your licence expire, the Council permits a maximum period of 8 weeks for the licence to be renewed. If more than 8 weeks has passed since the licence expired your vehicle will have to meet the criteria that are set for a new licence.

Suitability

The Council reserves the right to require any applicant or existing licence holder to provide additional disclosures or other relevant information if the Licensing Officer has reason to believe that circumstances have changed since the application was made.

The Licensing Authority may get information about you from third parties, or give information to them to check the accuracy of information. This is to prevent or detect crime, or to protect public funds in other ways, permitted by legislation. These third parties include other local authorities and government departments.

The legislation states that the Council may grant a licence **ONLY** if it is satisfied that the person is fit and proper and that the vehicle meets with the relevant criteria applicable – **the onus is on the applicant to prove this, NOT the Council to demonstrate that they are not.**

Issuing / Suspending / Revoking / Withdrawing or Refusing to Renew a Licence

It must be clearly understood that the Hackney Carriage or Private Hire Vehicle Licence is issued in good faith, and should any information supplied by the applicant prove to be false or misleading, the licence may be suspended. The Council reserves the right to consider other matters which it feels are likely to be relevant to whether or not the applicant is a fit and proper person. These considerations also apply when considering whether to renew a licence.

Transfers of Ownership – Registered Holder of Licence: You have a legal obligation under Section 49 of the Local Government (Miscellaneous Provisions Act) 1976 to notify the licensing authority of a transfer of ownership. The notification must be in writing sent within 14 days of the transfer. Failure to comply may result in the Council taking legal action against you.

Interpretation: For the purpose of the conditions detailed in this application pack, **The Licensing Officer** means an officer of Oxford City Council for the time being authorised in writing by the council for the purposes of part II of the Local Government (Miscellaneous Provisions) Act 1976 or the Town Police Clauses Act 1847, The Transport Act 1985 and the bye laws made thereunder.

NOTE: The council being in possession of a certificate of exemption granted by the Secretary of State for Transport is required to issue a certificate of compliance in respect of each licensed vehicle operating within the district. By virtue of the said certificate of exemption, the council may not accept anything other than a certificate of compliance as evidence of the satisfactory condition of the vehicle which is to be licensed. The test may only be carried out at a testing station appointed by the council and authorised by the Department of Transport. The test must be at least to M.O.T. standard before the certificate can be issued. When presenting the vehicle for licensing or re-licensing you must ensure that the date of issue of the certificate of compliance is not more than 28 days prior to the date of issue of the licence.

The approved testing station is the Oxford Direct Services Depot, who can also provide further details to the compliance test carried out on the vehicle. Details of the testing station can be found elsewhere on this page.

Nothing in this document shall be interpreted as overriding the provisions of the Part II of the Local Government (Miscellaneous Provisions) Act 1976 or the Town Police Clauses Act 1847, The Transport Act 1985 and the byelaws made thereunder.

VEHICLE EMISSION STANDARDS AND AGE LIMITS FOR ALL HACKNEY CARRIAGE AND PRIVATE HIRE VEHICLES

It is your responsibility to ensure that the vehicle meets the conditions and criteria detailed in this document relating to Hackney Carriage and Private Hire vehicles. The full specifications are contained within this document. Therefore you should ensure that any vehicle you wish to purchase is suitable to be licensed before you buy it.

HACKNEY CARRIAGE VEHICLES:

The information provided below sets out the criteria for emission standards applicable for licensing a new Hackney Carriage Vehicle as well as to renew an existing licence.

- A. The requirement for new Hackney Carriage Vehicle (HCV) applications where the maximum age for a new vehicle to obtain a licence is "less than five years of age" has been removed
- B. From 1st January 2020 all renewal HCV applications must meet the EURO 4 standard as minimum; and, with immediate effect all new HCV applications must meet either the EURO 4, EURO 6 or ULEV standard as a minimum (EURO 5 vehicles are not considered to meet that standard);
- C. From 1st January 2022 all new HCV applications must meet ULEV standard or at least Euro 4 if replacing an existing Euro 4, Euro 5 or Euro 6 due to the vehicle being written off by an insurance company or is a temporary courtesy vehicle due to repairs;
- D. From 1st January 2025 all new and renewal HCV applications must meet the Ultra-Low Emissions Vehicle standard

Date From	Renewal HCV Applications	New HCV Applications:
Renewal – 1 st January 2020 New – Immediately	All HCV must meet EURO 4 emission standard	All HCV must meet EURO4, EURO 6 or ULEV emission standard (EURO 5 vehicles will not be considered to meet this standard)
1 st January 2022	All HCV must meet EURO 4 emission standard	All HCV must meet ULEV standard, or at least Euro 4 if replacing an existing Euro 4, Euro 5 or Euro 6 due to the vehicle being written off by an insurance company or is a temporary courtesy vehicle due to repairs
1 st January 2025	All HCV must meet ULEV standard	All HCV must meet ULEV standard

The dates that EURO standards come into effect can vary: e.g. a manufacturer may be producing EURO 4 qualifying vehicles for a "transition period" before the official date that the standard comes into effect. For the purposes of this emission standard the following table describes how the emission standard of a vehicle will be assessed. Where there are "transition periods" the table assumes the highest Euro standard possible.

Date of first registration (DVLA)*	Standard expected
From 1 st July 1992	Euro 1
From 1 st January 1996	Euro 2
From 1 st January 2000	Euro 3
From 1 st January 2005	Euro 4
From 1 st September 2009	Euro 5
From 1 st September 2014	Euro 6

Any applicant who trusts that their vehicle meets a different emission standards than indicated by the requirements (table above), must submit such evidence to the Council. Where reasonable evidence is provided, Officers may approve the appropriate emissions standard for such vehicle and grant a licence.

A vehicle will be considered to meet the Ultra-Low Emissions Vehicle standard if it meets the UK government's definition of an Ultra-Low Emission Taxi (as of November 2018) "Taxis - These vehicles are purpose-built taxis and have CO2 emissions of less than 50g/km and can travel at least 112km (70 miles) without any emissions at all.

PRIVATE HIRE VEHICLES:

The information provided below sets out the criteria for age limit and emission standards applicable for licensing of a new Private Hire Vehicle, as well as to renew an existing licence.

New Vehicles: The maximum age for a new Private Hire Vehicle to obtain a license is:

- A. "Less than five years of age" when it is licensed (not when the application is made), and must meet with all of the Conditions of Fitness (as detailed within this Pack) applicable to the type of licence applied for
- B. "Less than seven years of age" for Alternative Fuel Type Vehicles (Tax Code TC59 definition), OR petrol vehicles (TC 48 definition) OR diesel vehicles (TC 49 definition AND meeting the RDE2 standard), that also produce CO2 emission figures of 110g/km or less as displayed in the DVLA V5 Vehicle Registration Certificate" and must meet with all of the Conditions of Fitness (as detailed within this Pack) applicable to the type of licence applied for.

Renewals: All Private Hire Vehicles currently licensed by this Authority shall be permitted to be re-licensed irrespective of their age.

*Date of first registration" shall mean the date of first registration in the UK, or the date of manufacture in the case of vehicles first registered outside the UK.

POLICY ON HACKNEY CARRIAGE QUANTITY CONTROL

Oxford City Council has decided that the Council's policy of quantity control on the number of Hackney Carriage vehicle licences should be maintained. It considers that the Council is best placed to determine local transport needs and that those needs must be determined in the context of the (long standing and consistent) traffic and transport policies in Oxford.

The City Council has maintained quantity control over the numbers of Hackney Carriage licences it issues for well over twenty years. However, it commissions regular surveys, conducted by independent specialist consultants, into whether there is, at the time of the survey, unmet demand for the services of Hackney Carriages in Oxford. Where the survey has found that there is unmet demand, the Council has issued additional licences so that supply equates with demand. In addition, both in connection with the survey and at other times, the Council has reviewed the amount and location of taxi stands. The Council has both full-time and part-time taxi stands, in the City centre and elsewhere.

In terms of quality control, the Council has driven up the quality of Hackney Carriages and Private Hire vehicles, and their drivers, so that the Council believes the quality and safety of the services provided by Hackney Carriages and Private Hire vehicles in Oxford is comparable to that of other leading local authorities. All Oxford's Hackney Carriages are wheelchair accessible. The Council is not complacent however, and continually reviews quality control, by enforcement and by other means.

At present there are 107 Oxford City licensed Hackney Carriages. An independent "unmet demand" survey is commissioned every 3 years, and its results are presented to the Full Council to determine whether the number of licensed Hackney Carriages in Oxford should be increased.

AUDIO AND VISUAL RECORDING EQUIPMENT IN LICENSED VEHICLES

Should you wish to fit Audio and Visual Recording Equipment in your licensed vehicle, such a decision will be of your own choice. Oxford City Council has no mandatory scheme in relation to such equipment. If you do fit such a system to your vehicle, please notify the Licensing Authority (either in writing or by email to licensing@oxford.gov.uk) in order that we can update our records. The information provided below is simply to assist you should you consider fitting any system to your vehicle.

Should you wish to fit such equipment, you should ensure that any system fitted to your vehicle complies with the Information Commissioners Office "CCTV Code of Practice", which states that:

CCTV must not be used to record conversations between members of the public as this is highly intrusive and unlikely to be justified. You should choose a system without this facility if possible. If your system comes equipped with a sound recording facility then you should turn this off or disable it in some other way. There are limited circumstances in which audio recording may be justified, subject to sufficient safeguards. These could include:

- **Audio based alert systems (such as those triggered by changes in noise patterns such as sudden shouting). Conversations must not be recorded, and operators should not listen in.**
- **Two-way audio feeds from 'help points' covered by CCTV cameras, where these are activated by the person requiring assistance.**
- **Conversations between staff and particular individuals where a reliable record is needed of what was said, such as in the charging area of a police custody suite.**
- **Where recording is triggered due to a specific threat, e.g. a 'panic button' in a taxi cab.**

In the limited circumstances where audio recording is justified, signs must make it very clear that audio recording is being or may be carried out.

Transport for London have adopted the ICO's advice in relation to audio recording in its Guidelines for CCTV Systems in Licensed London Taxis and Private Hire Vehicles, and we recommend that should you wish to fit such a system with audio recording enabled, that you follow the Transport for London model which states that:

- **Where recording is triggered due to a specific threat, e.g. a 'panic button' is utilised. Where this audio recording facility is utilised a reset function must be installed which automatically disables audio recording and returns the system to normal default operation after a specified time period has elapsed.**
- **The time period that audio recording may be active should be the minimum possible and should be declared at the time of submission for approval of the equipment.**

NOTIFICATION TO THE INFORMATION COMMISSIONER'S OFFICE

The Information Commissioner's Office (ICO) is the official regulator for all matters relating to the use of personal data.

The ICO defines a "data controller" as the body which has legal responsibility under the Data Protection Act (DPA) 1998 for all matters concerning the use of personal data. For the purpose of the installation and operation of in-vehicle CCTV, **the "data controller" is the specified company, organisation or individual which has decided to have CCTV installed.** The data controller has the final decision on how the images are stored and used and determines in what circumstances the images should be disclosed.

Notification is the process by which a data controller informs the ICO of certain details about their processing of personal information. These details are used to make an entry in the public register of data controllers.

This means that any specified company, organisation or individual vehicle owner who has a CCTV system installed in a TPH licensed vehicle must register with the ICO (Notification) and obtain documented evidence of that registration. This documentary evidence may be required to be presented to an official of the TPH at any time during the term of the TPH vehicle licence.

The Notification requires renewal on an annual basis, and payment of the appropriate fee.

USING A THIRD PARTY SERVICE PROVIDER (DATA PROCESSOR)

Where a service provider is used for the remote storage of CCTV data they will act as a 'data processor'. A data processor, in relation to personal data, means any person (other than an employee of the data controller) who processes data on behalf of the data controller, in response to specific instructions. The data controller retains full responsibility for the actions of the data processor.

SIGNAGE FOR INTERNAL AUDIO AND VISUAL RECORDING EQUIPMENT

All Taxis and Private Hire Vehicles fitted with Audio and Visual Recording Equipment must display signage informing passengers that the vehicle is equipped with such a system. The driver may also wish to verbally bring to the attention of the passengers that such equipment is in operation within the vehicle, if it is felt appropriate.

The signage must be displayed in such positions so as to minimise obstruction of vision and to make it as visible as possible to passengers, before and after entering the vehicle. In the limited circumstance where audio recording is justified, signs must make it very clear that audio recording is being or may be carried out. **The name and the contact telephone number of the Data Controller must be included on the sign.**

SIGNAGE FOR EXTERNAL FACING AUDIO AND VISUAL RECORDING SYSTEMS

Where a system is installed in order to record incidents *outside* the vehicle, it will not be practical to display a sign. Instead, when the system is activated in response to an incident, the driver of the vehicle must inform the person(s) recorded that their personal data was captured - as soon as practicable after the incident. They should also be informed the purpose for which the device has been installed, for example to facilitate their insurance company's investigation of insurance claims.

CONDITIONS APPLICABLE TO THE LICENSING OF HACKNEY CARRIAGE VEHICLES

Any requirements of legislation, which affect the operations carried out under the terms of a licence, shall be regarded as if they were conditions of that licence.

No vehicle shall be licensed as a Hackney Carriage unless it complies with the Council's Conditions of Fitness.

It must be understood that although the conditions of fitness set out may have been complied with, approval will be withheld if the Council is of the opinion that the vehicle is unsuitable for use as a Hackney Carriage.

A licence holder has a right of appeal to a Magistrate's Court against the imposition of the Conditions attached to a licence, by virtue of Section 300 – 302 of the Public Health Act 1936.

You should be fully aware that it is the policy of this Authority to only permit Hackney Carriages that are "manufactured as purpose-built nationally recognised taxis" to be deemed suitable for use as a licensed Hackney Carriage vehicle, and such vehicles must meet with all of the criteria, conditions and regulations applicable to the licensing of Hackney Carriage vehicles in Oxford. Details as to the makes and models of vehicles already deemed acceptable to be licensed by this Authority and information relating to the Councils Policy on Hackney Carriage Quantity Control can be found on our website: www.oxford.gov.uk/taxilicensing.

INFORMATION RELEVANT TO HACKNEY CARRIAGE VEHICLE LICENCE HOLDERS

The proprietor of a Hackney Carriage Vehicle must by law report to the Licensing Team as soon as reasonably practicable, and in any case within 72 hours, the occurrence of any accident involving the vehicle.

The Licensing Manager has the discretion to assess the damage (including damaged / missing advertising livery) to a vehicle following an accident, and decide whether the vehicle is fit to continue in service or not. If the Licensing Manager considers the damage to be such that the vehicle may continue in service until such time as a permanent repair is undertaken, such repairs must be undertaken within 28 days of the Licensing Manager's decision.

If any damage is considered by the Licensing Manager to be sufficient to affect the safety or general appearance of the vehicle, it must be immediately withdrawn from service and the plate removed. The vehicle must be repaired before the plate is re-affixed and the vehicle returned to service. In the case of any dispute as to fitness for service the vehicle will be taken to the Council nominated testing station where a qualified mechanic will give a binding decision, which will be final. The owner will pay the fee for such examination.

EXEMPTION FROM DISPLAYING PLATES & STICKERS: PRIVATE HIRE VEHICLES

Some customers prefer to be driven in executive vehicles that are low profile and represent their organisation - especially when meeting a client. Many chauffeur companies and some Private Hire Operators employ section 75(3) of the Act. Using this section of the law, allows for specific vehicles to be granted dispensation from displaying their Private Hire plate and door stickers.

Criteria: The work undertaken must not be conventional Private Hire work but regarded as specific 'chauffeur-driven' work, and that the vehicle to be used for such work is an "executive and prestigious" type vehicle of a higher standard than that of a 'normal' vehicle used for private hire work. This must be proved through the procedures detailed below.

Renewal of Exemption: Such an exemption must be reapplied for at the time of each vehicle licence renewal application. This exemption does not include school contracts or similar work for which a fully signed vehicle must be used.

Internal Plates: Exempt vehicles will be required to display two Oxford City Council vehicle internal "Exemption" plates showing that the vehicle is a licensed Private Hire Vehicle. Each internal "Exemption" plate must be displayed within its holder, one to be displayed at the top of the windscreen on the nearside and the second at the top of the rear window on the offside.

Revocation of Exemption: Exempt vehicles that undertake standard private hire work without an invoiced contract in place may have their Exempt status withdrawn.

EQUALITY ACT 2010

HOW DOES THIS AFFECT HACKNEY CARRIAGE AND PRIVATE HIRE VEHICLE DRIVER?

There are some changes in the law which will come into effect in October 2010 which might affect you. The Equality Act 2010 includes provisions relating specifically to Hackney Carriages and Private Hire vehicles and disability. The Government brought into force several provisions of the Act in October 2010. Further provisions will come into force later – but not before April 2011.

The information below provides details of the provisions that came in to force in October 2010 in relation to Hackney Carriages and Private Hire vehicles, and what the implications will be for Hackney Carriage and Private Hire vehicle drivers; and details of the further measures that are due to be implemented at a future date yet to be determined.

DUTIES ON DRIVERS TO ASSIST PASSENGERS IN WHEELCHAIRS

The Equality Act is due to place duties on the drivers of designated wheelchair accessible Hackney Carriages and Private Hire vehicles to provide physical assistance to passengers in wheelchairs. A further announcement will be made on when the duties will come into force, but it will not be before April 2011.

The duties will apply to the driver of any wheelchair accessible Hackney Carriages and Private Hire vehicles which are on the licensing authority's list of "designated vehicles". Oxford City Council will be maintaining a list of designated vehicles and therefore the following duties will apply to you. Before the duties are brought into force, any drivers who suffer from a disability or a condition which would make it difficult for them to provide physical assistance can apply for an exemption from the duties to offer assistance. The opportunity to apply for exemptions started on 1 October 2010.

LISTS OF WHEELCHAIR ACCESSIBLE VEHICLES

Section 167 of the Act allows licensing authorities to maintain a list of "designated vehicles", that is, a list of wheelchair accessible Hackney Carriages and Private Hire vehicles licensed in their area. The consequence of being on this list is that the driver must undertake the duties in section 165. This section will be commenced at a later date (not before April 2011).

When section 167 comes into force, and the lists of designated vehicles have a statutory effect, it will be possible for the owner of a vehicle to appeal against a licensing authority's decision to include his or her vehicle on the list. This appeal will also go to the magistrates' court.

WHAT ARE THE DUTIES PLACED ON HACKNEY CARRIAGE AND PRIVATE HIRE DRIVERS?

The duties being placed on the drivers of designated wheelchair accessible Hackney Carriages and Private Hire vehicles are (under Section 165 of The Equalities Act 2010):

- **to carry the passenger while in a wheelchair**
- **not to make any additional charge for doing so**
- **if the passenger chooses to sit in a passenger seat, to carry the wheelchair**
- **to take such steps as are necessary to ensure that the passenger is carried in safety and reasonable comfort; and**
- **to give the passenger such mobility assistance as is reasonably required.**

WHAT DOES MOBILITY ASSISTANCE MEAN?

Mobility assistance essentially means helping passengers who use wheelchairs by providing physical assistance. If the passenger wishes to remain in the wheelchair, the driver must help the passenger to get into and out of the vehicle. If the passenger wants to transfer to a seat, the driver must help him or her to get out of the wheelchair and into a seat and back into the wheelchair; the driver must also load the wheelchair into the vehicle. The driver must also offer to load the passenger's luggage into and out of the vehicle.

WHAT IF I HAVE A MEDICAL CONDITION WHICH PREVENTS ME FROM CARRYING OUT THESE DUTIES?

The new Act allows for exemptions from the duties on medical grounds or if the driver's physical condition makes it impossible or unreasonably difficult for him or her to comply with those duties. It is the responsibility of drivers who require an exemption to apply for one from their licensing authority before the duties come into force; they will have at least six months to go through this process.

WHO DECIDES IF A DRIVER IS EXEMPT?

The local licensing authority decides if a driver should be exempt from the duties.

WHAT IF THE LICENSING AUTHORITY SAYS THAT I AM OK TO CARRY OUT THE DUTIES AND I DISAGREE?

The legislation allows a driver to appeal to the magistrates' court within 28 days if the licensing authority decides not to issue an exemption certificate.

HOW WILL PASSENGERS KNOW THAT I AM EXEMPT FROM THE DUTIES TO ASSIST PASSENGERS?

The Department will be printing and issuing to licensing authorities special Exemption Notices which exempted drivers must display on their vehicles in order that passengers will know that the driver is exempt from duties.

GUIDE DOGS

The other thing that will happen on the 1st of October 2010 is that the duties placed on Hackney Carriages and Private Hire drivers and on Private Hire Vehicle operators to carry guide dogs and other assistance dogs will transfer from the Disability Discrimination Act 1995 to the Equality Act 2010. In practice, the duties will remain exactly the same as they are now. Any person who is currently exempt from the duty to carry an assistance dog on medical grounds will continue to be exempt. That is because we have made a change in the law so that all existing exemption certificates and all existing exemption notices remain in force as though they had been made under the Equality Act 2010.

I HAVE AN EXEMPTION CERTIFICATE WHICH SAYS THAT IT WAS ISSUED UNDER THE DISABILITY DISCRIMINATION ACT 1995 – DO I HAVE TO GET A NEW ONE?

No, you do not have to get a new certificate; the certificate which you have been granted remains valid until its expiry date.

I HAVE A SPECIAL NOTICE IN MY HACKNEY CARRIAGE / PRIVATE HIRE VEHICLE WHICH SAYS THAT I AM EXEMPT FROM CARRYING GUIDE DOGS AND MENTIONS THE DISABILITY DISCRIMINATION ACT 1995 SO WILL I NEED TO GET A NEW ONE?

No, you do not have to get a new exemption notice; the notice which was provided by the licensing authority remains valid until its expiry date
