

9. Sites

- 9.1 A site allocation is a planning policy that describes what type of land use, or mix of uses, would be acceptable on a specific site or whether the site is protected for certain types of development. The purpose of the site allocations is to allocate sites for built development or to maintain a type of built development on a site. Site allocations are important because they give guidance and certainty to developers and landowners and they help local people understand what may happen in their neighbourhood in the future. They are a positive policy towards redevelopment of the site and help ensure the right type of development happens in order to meet the Strategy of this Local Plan and the *National Planning Policy Framework*.
- 9.2 Similar current site allocations can be seen in the Sites and Housing Plan Part B. Some of these have become out of date or have been built so we now need to review them. They will be superseded once the Local Plan 2036 is adopted. We also need to determine which new sites should be allocated for development to meet the needs of Oxford whilst also protecting sites that are important facilities for residents and enable businesses to thrive in Oxford.
- 9.3 Oxford City Council has three Area Action Plans in place covering the West End, Barton and Northern Gateway. These contain detailed policies for future development of those areas.

Opt 107: Area Action Plans

Policy approach	Consequences of approach/discussion
A) Preferred option: Continue to use the existing Area Action Plans as the basis for decisions on appropriate uses in those areas, rather than including detailed new site allocation policies.	The Area Action Plans have considered these areas in detail and already contain policies to guide decision making. There is no clear need for the Local Plan to include new detailed policy allocations for these areas, other than to include a new policy to link to the Area Action Plans. In this approach, the adopted AAPs would remain part of the planning policy framework for the city and would be used in determining planning applications in those areas.
B) Alternative Option: Include new site allocation policies for the Area Action Plan areas and any individual sites within them.	This approach would affect the West End in particular, as it is a large area of the city centre that is brownfield land, and where a large number of sites could potentially come forward individually. The West End Area Action Plan looked at the balance of uses necessary across the area, rather than individual site allocations, which seems more appropriate for a large brownfield area of the city centre than a series of individual site allocations within the Local Plan. In this approach, the AAPs would be superseded by the new policies of the Local Plan.

Compiling the initial list of sites

- 9.4 The full list of 516 sites was compiled from a wide range of sources. The City Council has taken an approach of 'leaving no stone unturned' to find sites suitable for development to meet the needs of Oxford.
- 9.5 Potential sites were identified from the following sources:
- Core Strategy allocated sites
 - Sites and Housing allocated sites
 - West End AAP identified sites
 - Other sites from the previous 2014 Strategic Housing Land Availability Assessment

- v. Calls for sites inviting landowners to nominate their sites (2014, 2016, Local Plan)
- vi. Protected Key Employment Sites
- vii. Other employment sites not protected (if greater than 0.25ha)
- viii. Wildlife Corridor and Sites of Local Importance for Nature Conservation (SLINC) designations
- ix. Protected Open Space designations (public open space, open air sports, allotments)
- x. Sites previously rejected through the Sites and Housing Plan process
- xi. Stakeholder consultation (Unlocking Oxford's Development Potential [Cundell] Report)
- xii. City Council department suggestions (Property/Leisure)
- xiii. Commitments (sites with planning permission or Prior Approval for housing, student accommodation)
- xiv. Sites refused planning permission or expired but suitable for housing/ student accommodation in principle
- xv. Map survey (any other piece of land greater than 0.25ha)

Assessing the list of sites

9.6 A three stage process was followed to identify which of these potential sites should be included as proposed site allocation policies in the Local Plan. The three stages can be summarised as follows:

Stage 1 Assessment: Exclude those sites with clear conflicts with national policy and/or insurmountable environmental or physical constraints

Stage 2 Assessment: Assessment against the *Sustainability Appraisal* objectives

Stage 3 Assessment: Assessment against the Local Plan Preferred Options strategy and deliverability considerations

Stage 1 Assessment

All sites underwent a Stage 1 filter process; sites were rejected for allocation for development at Stage 1 only if they were:

- i. a Special Area of Conservation (SAC) or Site of Special Scientific Interest;
- ii. greenfield in flood zone 3b;
- iii. less than 0.25 hectares in area;
- iv. already at an advanced stage in the planning process (i.e. development has commenced).

Stage 2 Assessment

All sites that had passed the Stage 1 filter process were considered against the *Sustainability Appraisal* objectives. The physical criteria were assessed in terms of accessibility, flood risk, topography, contamination, air quality, neighbouring land uses, distance to primary school and GP surgery and location in deprived area. The environmental criteria were assessed in terms of land type, townscape/landscape character, heritage assets, biological/geological importance and green infrastructure. Sites were scored accordingly, however sites were only rejected for allocation for development at Stage 2 if they:

- i. were considered to be part of Oxford's Green Infrastructure network as determined in the Green Infrastructure Study;
- ii. had no clear access.

A three stage process was followed to identify which of these potential sites should be included as proposed site allocation policies in the Local Plan.

9.9 Stage 3 Assessment

All sites that had passed the Stage 2 assessment were considered in terms of deliverability and against the Local Plan Preferred Options strategy. Sites were rejected for allocation for development at Stage 3 only if:

- i. it is extremely unlikely to become available during the plan period (i.e. before 2036);
- ii. the landowner has indicated that they have no intention to develop;
- iii. there is serious conflict with the NPPF/Oxford Local Plan Preferred Options strategy and no mitigation is possible

9.10 In total, 390 sites were rejected at stage 1, 2 or 3. The remaining 126 were then considered for a preferred option (in terms of use or protection) using the strategy of the *Preferred Options Document*.

How the site allocations will deliver the strategy

9.11 The earlier sections of the *Preferred Options Document* set out the strategy for this Local Plan. Many of the Preferred Options have spatial implications, which mean that they will direct certain types of development to certain locations, will favour certain types of development over others, and will protect certain types of existing uses. The site allocations therefore help to deliver the strategy of the Local Plan 2013.

9.12 The Local Plan Preferred Options strategy would lead to the following spatial approaches.

9.13 Allocating new built development and protecting certain built development (through Site Allocations):

- i. **Allocating as many sites as possible for housing** where deliverable
- ii. **Protecting existing housing** only allowing redevelopment in exceptional circumstances
- iii. **Allowing new purpose built HMOs** in appropriate locations
- iv. Allowing new student accommodation only on allocated sites, existing campuses, in district centres and the city centre
- v. **Supporting older persons accommodation**
- vi. **Allocating Green Belt sites for housing** (if suitable in other respects) and other important infrastructure that are rated as having a 'moderate' and 'low' (but not 'high') impact on the function of the Green Belt
- vii. **Protecting employment uses** that are important to the knowledge economy or are important nationally and regionally (described as Category 1 sites in the Preferred Options)
- viii. **Allowing the loss of B8 sites** to other B1, B2 and Sui Generis that support the local economy
- ix. **Ensuring that uses that attract a lot of people follow the hierarchy of centres:** City centre; primary district centre (Cowley centre); district centres; local centres
- x. **Ensuring that proposals do not conflict with the Primary and Secondary Shopping Frontages** in city and district centres in line with Retail and Leisure Study
- xi. **Ensuring that proposals in the amended district centre boundaries are town centre compatible uses**
- xii. **Resisting the expansion of private language schools**
- xiii. **Protecting existing hospital sites** for hospital related uses, allowing some diversification

Some of these sites will be protected by general policies relating to the use of the sites, for example pubs

- xiv. **Allowing new primary healthcare facilities** in accessible locations
 - xv. Providing facilities just outside the city centre to the North/South for tourist coach drop off and pick up, with tourist coach parking provided at Park and Ride sites
 - xvi. **Allowing water-compatible uses and essential infrastructure in flood zone 3b** (the functional floodplain)
 - xvii. **Allowing development on brownfield sites in flood zone 3b**, with very high standards of flood mitigation measures and reduced run-off required.
 - xviii. **Safeguarding land that would be required to deliver the potential expansion of the Cowley branch line** into a passenger railway line and the potential new stations
- 9.14 Protection of sites from development/redevelopment. Some of these sites will be protected by general policies relating to the use of the sites, for example pubs. Some of the larger and more significant sites will also have a more typical site allocations policy relating specifically with that site, and dealing with issues such as potential for improved access and consolidated parking arrangements, shared open spaces and the potential for intensification and diversification to a wider range of uses (though overarching protection policies not typically Site Allocations):
- xix. **Protecting all other (non-Category 1) employment sites** that provide important local services and maintain a diverse employment base (sites other than Category 1 sites that are identified in the Employment Land Assessment)
 - xx. **Protecting sites that are identified as part of the Green Infrastructure Network** through the Green Infrastructure Study
 - xxi. **Protecting the Special Area of Conservation, Sites of Special Scientific Interest, Local Nature Reserve, Local Wildlife Sites, Wildlife Corridors** and other sites with biodiversity interest (those with recorded **protected species**).

- xxii. **Protecting playing pitches and allotments** unless criteria are met such as replacement nearby or improvement to nearby facilities or demonstration they are surplus to requirements
- xxiii. **Protecting pubs**, using a criteria based approach requiring evidence of diversification to establish a wider customer base; lack of viability with marketing a key component
- xxiv. **Protecting community facilities**, allowing loss under certain circumstances, such as replacement nearby; or improvement to nearby facilities; or demonstration they are surplus to requirements; or that opportunities have been explored for multi-use
- xxv. **Protecting existing state primary and secondary school sites** and support extensions and more intensive uses on site.

- 9.15 It is important to note that should the general policy approach change from that set out in the Preferred Options (for example an alternative option is taken forward instead), this may well have a spatial implication and the appropriate use for a site might change.
- 9.16 At this Preferred Options stage we have also considered information obtained through our Calls for Sites where landowners and developers have promoted sites and provided their justification for certain uses. This information has helped assess the sites against the Preferred Options spatial implications above. **We may not have obtained information from some landowners/developers for some time so we will use this consultation to update our information on intentions for sites and to make factual updates.** We will contact landowners again if we are still missing up-to-date information.
- 9.17 Table 4 and Table 5 show the outcomes of the sites assessment process. Table 4 shows the sites that were rejected, with the reason for rejection, and Table 5 shows the sites that are recommended for further investigation. It includes which uses, if any, the sites should be allocated for on the basis of the strategy, Preferred Options and landowner/developer information.

Next steps

- 9.18 The site allocations are being progressed alongside the overarching Local Plan strategy and the Preferred Options for delivering it. Depending on the outcome of consultation, and further evidence gathering, the refined policy approach might change from the Preferred Option which in turn might affect the appropriateness of the site allocations as listed in Table 4 and Table 5. Further work to be undertaken which might affect the site allocations are:
 - Detailed assessment of individual sites against the refined policy approach including *Sustainability Appraisal* of individual sites;
 - Updated information on land ownership intentions and deliverability identified through the consultation and make any further contact if required;
 - Strategic Flood Risk Assessment and Sequential Test;
 - Updated *Housing and Employment Land Availability Assessment* (HELAA) to assess capacities against refined policy approach to reflect any changes in housing capacity flowing from housing mix, densities, open space requirements etc.;
 - Updated *Strategic Housing Market assessment* to identify Oxford's housing need;
 - *Housing Viability Study* to understand viability of developments.
