

# OXFORD LOCAL PLAN 2040 PLANNING OXFORD'S FUTURE PREFERRED OPTIONS HAVE YOUR SAY

www.oxford.gov.uk

The Local Plan can help tackle many of the issues that the city faces, such as our environment, inequalities and climate change. It will set out where and how new development can happen. It will look at what development is needed in the city and try to provide for that. At the same time it will try to keep hold of the things that make Oxford a special place, and see where things can improve to make it a better place to live, work and visit.

Last summer we asked you what issues the new Local Plan should cover. We have listened to what local communities, businesses and other organisations have told us and set out what we think are the best policy options for Oxford and we want to know what you think.

**Throughout the consultation period, come and talk to the Planning Policy team at the following locations:**
