Dear Sir,

Re :Land at Meadow Lane SPS8 (known locally as the Horse Fields).

Any development here would be unsustainable, due to the high level of harm to ecology and the Ifley rural conservation area, which can't be mitigated, and difficult access, causing danger to users of the quiet route for active travel. It's also in a flood zone. Therefore this makes the plan not positively prepared.

There is now no minimum housing allocation for this site, so in fact it might not be able to deliver any housing at all in a sustainable or policy compliant way. It's been found with evidence to be a very sensitive site with 15 different constraints, the most for any site in the plan. There are also alternative locations suitable for housing on brownfield sites in the city. Therefore allocating this site for development in the plan is not justified or effective.

Conclusion: Allocation of this site for development makes the plan unsound, because it isn't positively prepared, justified or effective.

Therefore this site SPS8 should be DELETED from the Local Plan 2045.

Thank you.

Sophia Smith
